TITLE 6-AGRICULTURAL CREDIT

Chapter II—War Food Administration (Commodity Credit)

[Apple Program, Form 1, Int. 2]

PART 242—Apple Freight Equalization PAYMENT PROGRAM

SHIPMENTS OF APPLES

In response to inquiries received by Commodity Credit Corporation (herein called "Commodity"), and to render explicit that which was implicit in the Offer of Commodity Credit Corporation to Make Freight Equalization Payments in Respect of Certain Shipments of Apples from Washington, Oregon, and Western Idaho, as issued October 22, 1943, 8 F.R. 14878, and amended December 13, 1943, 8 F.R. 16774, (said original offer and said offer amended as aforesaid being herein called the "offer") Commodity hereby issues the following interpretation with respect to such offer:

1. All weights referred to in the offer as determinative of amounts of payment thereunder shall be determined in accordance with the ordinary practice of common carriers in the application of their established tariffs, and may include the weight of the container and wrapping if such weight is not excessive, having due regard to the usual custom of shippers with respect to shipments of apples. In the case of shipments in boxes or other containers (whether the apples are wrapped or not) where the common carrier, properly under its established tariffs, applies a rate based upon a fixed weight determined by the size of the box or other container, the weight thus charged for by such common carrier shall be the weight used in determining the amount of payment under the offer.

2. The term "lowest applicable freight rate" as used in the offer in respect of eligible shipments of apples, means the rate applicable to that size of shipment

of apples which bears the lowest freight rate from the applicable point of shipment in Zone VI to the applicable point of destination in Zones I, II, III, or IV as determined from the established tariffs of the carrier.

3. Where the lowest applicable freight rate on an eligible shipment is other than one of the rates specified in § 242.3 as being applicable to eligible shipments made from Zone VI to the applicable zone of destination, the rate of payment on such eligible shipment shall be that applicable to the next lower freight rate so specified. For example, if the lowest applicable freight rate per 'hundredweight on a particular eligible shipment arriving subsequent to December 13, 1943, at a point of destination in Zone I is \$1.18, the equalization payment thereon will be that applicable to a shipment on which the freight rate is \$1.15, i. e., the equalization payment will be \$.92 per hundredweight. If, however, the lowest applicable freight rate on such eligible shipment is less than any freight rate so specified in § 242.3, no payment shall be made on such eligible shipment under the offer. For example, if under the previous illustration, the lowest applicable freight rate per hundredweight on the eligible shipment were \$1.01, no equalization payment would be made inasmuch as the lowest freight rate specified in the offer with respect to Zone I is \$1.05.

4. Consistent with the purposes of the Apple Freight Equalization Payment Program as stated in the offer, the term "utilized for domestic civilian non-governmental consumption" as used in the offer, means the lawful utilization of the apples included in such shipment, i. e., that such utilization (including all sales and deliveries involved) was (or will be, as the case may be) in conformity with all applicable orders and regulations of War Food Administration and of Office of Price Administration. Each eligible shipper shall be required to certify accordingly with respect to each shipment for which equalization payment is sought pursuant to the offer.

Chapter III—War Food Administration (Farm Security)

Subchapter G-Farm Ownership

PART 361—DELEGATIONS

FINAL PAYMENT OF FO LOANS

Part 361 is amended by the addition of paragraph (b) (10) to § 361.11, Delegations of authority, to read as follows:

(10) Final payment of FO loans—(i) Authorization. Regional directors are authorized to accept final payment of FO loans and to execute necessary releases. This authority may be redelegated to Assistant Regional Directors, FO, or Chiefs of FO Loan Making and Servicing Sections.

(ii) Submitting application to regional director. (a) When an FO borrower has indicated his intention to pay his loan in full, the FSA Supervisor will advise the Regional Director, by letter, of the borrower's intention. (This will not be necessary if payment is to be made from the proceeds of a sale which has been approved previously by the Administrator or the Regional Director.) The source of funds from which the payment is to be made will be indicated; it will also be indicated whether the borrower is to remain on the farm and continue farming operations, or, if not, whether the property will continue to be operated as a family-type farm. If the Regional Director approves the acceptance of final payment he will so advise the FSA Supervisor.

(b) At the time that the FSA Supervisor requests the Regional Director's approval for the acceptance of final payment, he will request the Finance Area Office, by letter, to inform him of the unpaid balance of principal and interest

of the borrower's account as of the approximate date the borrower expects to make payment, and the daily accrual of interest thereafter. In this letter he will state the date and amount of the last collection received from the borrower, also the schedule number of Standard Form No. 1044, "Schedule of Collections", on which the remittance was scheduled.

(iii) Preparation of receipt: Final payment of the account will be indicated on Form FSA-FI 37, "Receipt for Payment", by inserting immediately above the collector's signature on the yellow, salmon, pink and blue copies the following: "Loan Type ______Fully Paid".

salmon, pink and blue copies the fol-lowing: "Loan Type _____ Fully Paid". (iv) Surrender of notes. Upon re-ceipt, from the U. S. Treasury Regional Disbursing Office, of the accomplished copy of Standard Form No. 1044 covering the remittance which paid the account in full, the Finance Area Office will immediately prepare Form FSA-597, "Statement of Fully Paid Notes", in triplicate. The original and first copy will be forwarded to the Communications and " Records Section in the Finance Area Office city and the second copy will be filed in the Loan Accounting Section. The receipt of Form FSA-597 in the Regional Communications and Records Section will be recognized as authority to surrender the note. The Regional Communications and Records Section will stamp the note with a paid-in-full legend, attach it to the original of Form FSA-597 and forward it to the regional office, attention FO Division (or, in regions with small case loads, the FO Loan Making and Servicing Section). The copy will be filed in the borrower's case folder.

(v) -Satisfactions. Upon receipt of Form FSA-597 and the stamped note in the regional office, appropriate entries will be made on the Kardex records and the Regional Attorney will be requested the satisfaction. The prepare stamped note, the original of Form FSA-597 and the original and one copy of the executed satisfaction (or two copies if state laws require recording or filing by the mortgagee) will be forwarded to the FSA Supervisor. The original of Form FSA-597 will be filed in the borrower's case folder in the collecting office and the stamped note delivered promptly to the borrower. (The regional office will issue instructions to collecting officials as to the length of time paid notes and satisfactions should be held for actual delivery to the borrower pending final clearance of the collection item, when the final payment is in a form other than a Treasury check, cashier's check or money order.) The original satisfaction will be delivered to the borrower for recording or filing if desired, and the copy will be retained in the collecting office. However, if state laws require recording or filing by the mortgagee and two copies have been supplied by the regional office, the original will be recorded or filed by the collecting official and a copy delivered to the borrower. (For instructions with respect to payment of fees,

. .

see paragraph VIII D of FSA Instruction 462.2.)

(vi) Prior releases confirmed. All releases heretofore executed by Regional Directors or their delegatees upon final payment of FO loans are hereby confirmed.

(Sugar Regulations)

PART 802-SUGAR DETERMINATIONS

1944 FARLING PRACTICES IN HAWAII

Determination of farming practices to be carried out in connection with the production of sugarcane during the crop year 1944 for the Territory of Hawaii.

Pursuant to the provisions of section 301 (e) of the Sugar Act of 1937, as amended, and Executive Order No. 9322, issued March 26, 1943, as amended by Executive Order No. 9334, issued April 19, 1943, the following determination is hereby issued:

§ 802.33f Farming practices in connection with the production of the 1944 crop of sugarcane in the Territory of Hawaii—(a) Application of fertilizer. The requirements of section 301 (e) of the Sugar Act of 1937, as amended, shall be deemed to have been met with respect to a farm in the Territory of Hawaii if fertilizer is applied as follows:

(1) Amount. There shall be applied to land on which sugarcane is growing during 1944 sufficient chemical fertilizer to provide an average quantity of plant food per acre fertilized equal to not less than 100 pounds.

(2) Acreage requirement. The number of acres on which fertilizer is applied in 1944 shall be not less than 80 percent of the number of acres on the farm on which sugarcane is planted, or a ration crop of sugarcane is started, at any time during 1944.

(b) Definitions. "Chemical fertilizer" means commercial chemical fertilizer of which not less than 15 percent of the gross weight consists of plant food. "Plant food" means the aggregate amount of nitrogen, available phosphoric acid and water-soluble potash.

§ 865.1 Findings and determinations— (a) Findings upon the basis of hearing record. Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR, 1941 Supp., 900.1-900.17; 7 FR. 3350; 8 FR. 2815), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agree-ment and to the order regulating the handling of milk in the Cincinnati, Ohio, marketing area. It is hereby found upon the evidence introduced at such hearing, sald findings being in addition to the findings made upon the evidence introduced at the original hearing on said order and in addition to the other findings made prior to or at the time of the original issuance of said order (which are hereby ratifled and affirmed, save only as such findings are in conflict with the findings hereinafter set forth), that:

(1) The issuance of this order, as amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the Cincinnati, Ohio, marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in this order, as amended, are such prices as will reflect the aforesald factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) This order, as amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) Determinations. It is hereby determined that handlers (excluding coperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this

order, as amended) of at least 50 percent of the volume of milk covered by this order, as' amended, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the Cincinnati, Ohio, marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared

policy of the act;

(2) The issuance of this order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the Cincinnati, Ohio, marketing area; and

(3) The issuance of this order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period, were engaged in the production of milk for sale in the said marketing area.

Order Relative to Handling

It is hereby ordered that such handling of milk in the Cincinnati, Ohio, marketing area as is in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce shall from the effective date hereof be in compliance with the terms. and conditions of this order, as amended.

§ 965.2 Definitions. The following terms shall have the following meanings:

- (a) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246 (1937), 7 U.S.C. 1940 ed. 601 et seq.), as amended.
- (b) "War Food Administrator" means the War Food Administrator of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers or to perform the duties, pursuant to the act, of the War Food Administrator.
- (c) "Cincinnati, Ohio, marketing area", hereinafter called the "marketing area", means the city of Cincinnati, Ohio, and the territory geographically included within the boundary lines of Hamilton County, Ohio.

(d) "Person" means any individual, partnership, corporation, association, or

any other business unit.

- (e) "Producer" means any person who produces milk which is received at a plant from which, under approval of the proper health authorities, milk is disposed of as milk in the marketing area, or milk handled by a cooperative association under the conditions set forth in (f) of this section.
- (f) "Handler" means any person, irrespective of whether such person is a producer or a cooperative association. who engages in such handling of milk, all or a portion of which is disposed of as milk in the marketing area, as is in the current of interstate commerce, or which

directly burdens, obstructs, or affects interstate commerce in milk and its products. "Such handling of milk" as used in this definition, shall include the milk of any producer whose milk has been received previously at a plant described in (e) of this section, which milk has been caused to be delivered by a cooperative association, during the delivery periods of April, May, and June to a plant from which no milk is disposed of in the marketing area, if payment therefor has been collected by such cooperative association; and such milk shall be deemed to have been received from producers by such cooperative association. "Handler" shall not include any person from whom emergency milk is received or any person who handles only milk of his own production.

(g) "Delivery period" means any calendar month, except that the first delivery period shall mean the period from the effective date hereof and until the end of the calendar month in which such

effective date occurs.

(h) "Market administrator" means the agency which is described in § 965.3

for the administration hereof.

(i) "Emergency milk" means milk or skim milk received by a handler from sources other than producers under a permit to receive such milk which has been issued to him by the proper health authorities: Provided, That the total quantity of milk and skim milk so received shall be in excess of the total quantity of milk diverted on the same day by a cooperative association under the conditions set forth in (f) of this section.

§ 965.3 Market administrator—(a) Designation. The agency for the administration hereof shall be a market administrator, who shall be a person selected by the War Food Administrator. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the War Food Administrator.

(b) Powers. The market administrator shall:

(1) Administer the terms and provisions hereof; and

(2) Report to the War Food Administrator complaints of violations of the provisions hereof.

(c) Duties. The market administrator, in addition to the duties hereinafter described, shall:

- (1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the War Food Administrator a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the War Food Administrator:
- (2) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;
- (3) Pay, out of the funds provided by § 965.10, the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, his own compensation. and all other expenses which will necessarily be incurred by him in the mainte-

nance and functioning of his office and in the performance of his duties;

(4) Keep such books and records as will clearly reflect the transactions provided for herein, and surrender the same to his successor or to such other person as the War Food Administrator may designate;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the War Food Administrator, the name of any person who, within 2 days after the date upon which he is required to perform such acts, has not made reports pursuant to § 965.4 or has not made payments pursuant to §§ 965.8 and 965.10;

(6) Promptly verify the information contained in the reports submitted by

handlers: and

(7) Furnish such information and verified reports as the War Food Administrator may request, and submit his books and records to examination by the War Food Administrator at any and all times.

§ 965.4 Reports—(a) Reports of handlers to market administrator. Each handler, under his own signature or under that of a person certified by such handler to the market administrator as being authorized to sign the reports required by this section, shall report to the market administrator, in the detail and on forms prescribed by him, as follows:

(1) On or before the 10th day after the end of each delivery period, each handler who receives milk from producers shall report with respect to all milk, skim milk, and cream received by him

during the delivery period:

(i) The receipts of milk at each plant from producers, from his own production, and from other handlers:

(ii) The receipts of emergency milk, the date or dates upon which such milk was received during the delivery period, the plant from which such milk was shipped, the price per hundredweight paid or to be paid for such milk, and the utilization of such milk;

(iii) The milk, skim milk, and cream, with the butterfat content, received

from any other source;

(iv) The utilization of all receipts of milk, skim milk, and cream during the delivery period;

(v) The name and address of each

new producer; and

(vi) His producer pay roll, which shall show for each producer the total receipts of milk with the average butterfat test thereof, the amount of the advance payment to such producer made pursuant to § 965.8 (a), and the deductions and charges made by the handler:

- (2) On or before the 5th day after the end of each delivery period, each handler who receives milk from producers shall report, with respect to Class I milk disposed of outside the marketing area during the delivery period, the amount and the utilization of such milk, the butterfat test thereof, the date and place of such sale or disposition, and the plant from which such milk was shipped;
- (3) On or before the day each handler who receives milk from producers receives emergency milk, he shall report

his intention to receive such emergency milk;

(4) On or before the 10th day after the end of each delivery period, a cooperative association causing delivery of milk under the conditions set forth in § 965.2 (f) shall report the amount of such milk, the date or dates of such delivery during the delivery period, the plant to which such milk was delivered, and the utilization of such milk;

(5) Within 10 days after the market administrator's request each handler who receives milk from producers shall report, with respect to each of his producers for whom such information is not in the files of the market administrator and with respect to a period or periods of time designated by the market administrator, the name and address, the total pounds of milk received, the average butterfat test of milk received, and the number of days upon which milk was received; and

(6) Each handler who receives no milk from producers shall make reports to the market administrator at such time and in such manner as the market ad-

ministrator may request.

- (b) Verification of handler reports. Each handler shall make available to the market administrator or to his agent, or to such other person as the War Food Administrator may designate, those records which are necessary for the verification of the information contained in the reports submitted pursuant to this section, and those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer.
- (c) Reports of market administrator to cooperative associations. On or before the 13th day after the end of each delivery period, the market administrator shall report to each cooperative association the amount and class utilization of milk caused to be delivered by such association, either directly or from producers who have authorized such association to receive payments from them under § 965.9 (b), to each handler to whom the cooperative sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were used in each class.
- § 965.5 Classification of milk—(a).Basis of classification. Milk received by each handler, including milk produced by him, shall be classified by the market administrator in the classes set forth in (b) of this section, subject to the provisions of (c), (d), and (e) of this section.

(b) Classes of utilization. The classes of utilization of milk shall be as follows:

- (1) Class I milk shall be all milk disposed of in the form of milk and milk drinks, whether plain or flavored, and all milk not accounted for as Class II milk or Class III milk.
- (2) Class Π milk shall be all milk used to produce cream (for consumption as cream), creamed buttermilk, and creamed cottage cheese.
- (3) Class III milk shall be all milk accounted for (i) as actual plant shrinkage but not to exceed 2½ percent of total receipts of milk from producers (includ-

ing the handler's own production) and (ii) as used to produce a mill: product other than those specified in Class II mill:,

(c) Interhandler and nonhandler sales. Milk or skim milk disposed of by a handler to another handler or to a person who is not a handler but who distributes milk or manufactures milk products, shall be Class I failk; and cream so disposed of shall be Class II milk: Provided. That if the selling handler on or before the 10th day after the end of the delivery period furnishes to the market administrator a statement, which is signed by the buyer and the seller, that such milk, skim milk, or cream was used as Class III milk, such milk, skim milk, or cream shall be classified accordingly, subject to verification by the market administrator.

(d) Computation of milk in each class. For each delivery period, the market administrator shall compute for each handler the amount of his milk in each class, as defined in (b) of this section, as follows:

(1) Determine the total pounds of milk received (i) from producers, including milk of the handler's own production, (ii) from other handlers, (iii) as emergency milk, (iv) from any other source (including cream converted to 4.0 percent milk equivalent), and (v) add together the resulting amounts.

(2) Determine the total pounds of butterfat received, as follows: (i) Multiply the weight of milk received from producers, including the handler's own production, by its average butterfat test; (ii) multiply the weight of milk received from other handlers by its average butterfat test; (iii) multiply the weight of emergency milk by its average butterfat test; (iv) multiply the weight of milk and cream received from any other source by its average butterfat test; and (v) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I, as follows: (1) Convert to half pints the quantity of milk disposed of in the form of milk and milk drinks, whether plain or flavored, and multiply by 0.5375; (ii) multiply the result by the average butterfat test of such milk; and (iii) if the quantity of butterfat so computed; when added to the pounds of butterfat in Class II milk and Class III milk computed pursuant to (4) (ii) and (5) (iv) of this paragraph, is less than the total pounds of butterfat computed in accordance with (2) of this paragraph, an amount equal to the difference shall be divided by 4.0 percent and the resulting amount shall be added to the quantity of milk determined pursuant to (i) of this subparagraph.

(4) Determine the total pounds of milk in Class II, as follows: (i) Multiply the actual weight of each of the several products of Class II milk by its respective average butterfat test; (ii) add together the resulting amounts; and (iii) divide

such sum by 4.0 percent.

(5) Determine the total pounds of milk in Class III, as follows: (i) Multiply the actual weight of each of the several products of Class III milk by its average butterfat test; (ii) add together the resulting amounts; (iii) subtract the total pounds of butterfat in Class I milk

and Class II milk, computed pursuant to (3) (ii) and (4) (ii) of this paragraph, and the total pounds of butterfat computed pursuant to (ii) of this subparagraph from the total pounds of butterfat computed pursuant to (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 2½ percent of the total receipts of butterfat by the handler from producers, including that of the handler's own production); (iv) add together the results obtained in (ii) and (iii) of this subparagraph; and (v) divide the sum obtained in (iv) of this subparagraph by 4.0 percent.

(6) Datermine the classification of milk of producers as follows: (i) Subtract from the total pounds of milk in each class the total pounds of milk received from other handlers and used in such class; (ii) subtract pro rata out of the remaining milk in each class the total pounds of emergency milk; and (iii) subtract from the remaining milk in each class the total pounds of milk (and milk equivalent of cream converted to 4.0 percent milk), except emergency milk; received from sources other than producers or handlers and used in such

class.

- (e) Reconciliation of utilization of milk by classes with receipts of milk from producers. (1) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is less than the quantity of milk received from producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the quantity of milk received from producers and the total utilization of milk by classes for such handler.
- (2) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is greater than the quantity of milk received from producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the quantity of milk received from producers and the total utilization of milk by classes for such handler.
- § 965.6 Prices—(a) Class prices. Each handler shall pay, at the time and in the manner set forth in § 965.8, not less than the following prices per hundredweight, on the basis of milk of 4.0 percent butterfat content, for the respective quantities of milk in each class computed pursuant to § 965.5 (d) and (e).

(1) Class I milk—\$3.55;

(2) Class II milk—\$3.10: Provided, That the Class II price shall not be less than the Class III price plus 15 cents;

(3) Class III milk.—The price resulting from the following computation by the market administrator: Determine the arithmetical average of the basic, or fleld, prices per hundredwight ascertained to have been paid, without deductions for hauling or other charges to be paid by the farm shipper, for milk of 4.0

percent butterfat content received during the delivery period at the following plants:

Concern and Location of Plant

M. & R. Dietetic Laboratories, Inc., Chillicothe, Ohio.

Carnation Milk Company, Hillsboro, Ohio. Nestle's Milk Products, Inc., Greenville, Ohio.

Osgood Milk Company, Osgood, Indiana. Carnation Milk Company, Maysville, Kentucky.

Provided: That if the price so determined is less than the price computed by the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for the delivery period: · Multiply by 4 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture (or such other agency as may hereafter be authorized to perform this price reporting function) for the delivery period during which such milk was received, add 20 percent thereof, and add or subtract 3½ cents per hundred-weight for each full one-half cent that the price of dry skim milk for human consumption is above or below, respectively, 51/2 cents per pound. The price per pound of dry skim milk to be used in this subparagraph shall be the arithmetical average of the carlot prices for both spray and roller process dry skim milk for human consumption, f. o. b. manufacturing plant, as published by such agency for the Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period. In the event such agency does not publish carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, the arithmetical average of the carlot prices for both spray and roller process dry skim milk for human consumption, delivered at Chicago, shall be used, and the figure "71/2" shall be substituted for "51/2" in . the formula set forth above in this

(b) Butterfat differential to handlers. If the weighted average butterfat content of milk received by a handler from producers is other than 4 percent, there shall be added to or subtracted from, as the case may be, the class prices set forth in this section, for each onetenth of 1 percent of average butterfat content above or below 4 percent, an amount computed as follows: To the average price per pound of 92-score butter in the Chicago wholesale market, as reported by the United States Department of Agriculture (or such other agency as hereafter may be authorized to perform this price reporting function) for the delivery period during which such milk was received, add 20 percent thereof, and divide the result by 10.

(c) Computation of the value of milk for each handler. (1) For each delivery period the market administrator shall compute the value of milk for each handler, as follows:

(i) For each handler who receives milk from producers, multiply the hundredweight of milk in each class, com-

puted in accordance with §§ 965.5 (d) and 965.5 (e), by the respective class prices for 4 percent milk, subject to the butterfat differential provided by (b) of this section: Provided, That if any such handler has received milk or cream, except emergency milk, from sources other than producers or handlers, as referred to in § 865.5 (d) (6) (iii), and has disposed of such milk or cream other than as Class III milk, there shall be added to the value of milk thus far determined an additional amount computed as follows: Multiply the hundredweight of such milk, or milk equivalent of cream, by the difference between the Class III price and the price applicable to the class in which it was disposed.

(ii) For the hundredweight of milk involved in any adjustment made pursuant to § 965.5 (e) the handler shall be debited or credited, as the case may be,

at the Class III price.

(iii) For each handler who receives no milk from producers but who individually disposes of milk or cream, except emergency milk, in the marketing area other than as Class III milk, multiply the hundredweight of such milk, or milk equivalent of cream, by the difference between the Class III price and the price applicable to the class in which it was disposed.

(iv) Add together the resulting amounts.

(v) If, in the verification of reports submitted by a handler, the market administrator discovers errors in such reports which result in payments due the producer-settlement fund or the handler for any previous delivery period, there shall be added or subtracted, as the case may be, the amount necessary to correct such errors.

(d) Notification to handler of the value of his milk. On or before the 13th day after the end of each delivery period, the market administrator shall bill each handler for the value of milk computed for him in accordance with (c) of this section.

§ 965.7 Computation and announcement of uniform price—(a) Computation of uniform price. For each delivery period, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from producers, as follows:

(1) Add together the values of milk as computed in § 965.6 (c) for handlers who made the payments to the producer-set-tlement fund as required by § 965.8 (b);

(2) Subtract, if the weighted average butterfat test of all milk received from producers by handlers whose milk is represented in the sum computed under (1) of this paragraph, is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed as follows: Multiply the hundredweight of such milk by the variance of its weighted average butterfat test from 3.5 percent, and multiply the resulting amount by 50 cents if the average price of butter, described under § 965.6 (a) (3), was more than 40 cents; or by 40 cents if such average price of butter was more than 30 cents but not more than 40 cents; or .

by 30 cents if such average price of butter was 30 cents or less:

(3) Subtract an amount equivalent to the monies retained pursuant to § 965.12 (b):

(4) Add the balance in the producersettlement fund not reserved for payment under § 965.12 (b);

(5) Divide by the total hundredweight of milk of producers represented in the sum computed pursuant to (1) of this

paragraph; and

(6) Subtract from the figure obtained in (5) of this paragraph not less than 4 cents nor more than 5 cents per hundredweight for the purpose of retaining a cash balance to provide against errors in reports and in payments by handlers. The result shall be known as the uniform price per hundredweight for such delivery period for milk of producers which contains 3.5 percent of butterfat.

(b) Announcement of prices and transportation rates. On or before the first day of the following delivery period, the market administrator shall notify each handler of the uniform price for milk and of the price for Class III milk, and shall make public announcement of the uniform price computation. From time to time, the market administrator shall also publicly announce the amounts per hundredweight deducted by each handler from the payments made to producers pursuant to § 965.9, and the amounts actually paid to haulers for the transportation of milk from the farms of producers to such handler's plant or plants, as ascertained from reports submitted pursuant to § 965.4 (a).

§ 965.8 Payment for milk—(a) Payments to producers. On or before the 5th day after the end of each delivery period, each handler shall pay, with respect to all milk received during the delivery period, \$1.00 per hundredweight of milk to each producer: Provided, That in the event the total amount of the deductions and charges authorized by any producer against payments due such producer for the delivery period next preceding is greater than the payment computed for such producer pursuant to § 965.9 (a) with respect to the milk received from such producer during such preceding delivery period, the handler may deduct from the payment required by this paragraph a sum equal to the difference between such amounts.

(b) Payment to producer-settlement fund. On or before the 17th day after the end of each delivery period, each handler shall pay to the market administrator the amount of money which represents the value of milk billed to him for such delivery period, pursuant to § 965.6 (d), less the amount paid out to each producer in accordance with (a) of this section, and less the amount of the deductions and charges authorized by such producer which are itemized on the handler's producer pay roll: Provided, That in the calculation of the total amount of such deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer shall not be greater than an amount which, when added to the payment made to such producer in accordance with (a) of this section (inclusive of the deductions and charges authorized by (a) of this section), will not exceed the total value of the milk received from such producer. The market administrator shall maintain a separate fund, known as the producer-settlement fund, in which he shall deposit all payments of handlers received pursuant to this paragraph.

§ 965.9 Payments from producersettlement fund—(a) Calculation of payments for each producer. For each delivery period, the market administrator shall calculate the payment due each producer from whom milk was received during such delivery period by a handler who paid into the producer-settlement fund in accordance with § 965.8, as follows:

(1) Multiply the hundredweight of milk received from each producer by the uniform price computed in accordance with § 965.7 (a): Provided, That if the milk of each producer was of a weighted average butterfat content other than 3.5 percent, there shall be added or subtracted for each one-tenth of 1 percent variance above or below 3.5 percent, 5 cents if the average price of butter described in § 965.6 (a) (3) was more than 40 cents; 4 cents if such average price of butter was more than 30 cents but not more than 40 cents; or 3 cents if such average price of butter was 30 cents or less.

(2) Subtract in each case, the amount of the payment made pursuant to § 965.8 (a), and the charges and the deductions, if any, which are made pursuant to § 965.8 (b).

(b) Payments. (1) On or before the 20th day after the end of each delivery period, the market administrator shall pay, subject to the provisions of § 965.11, to each cooperative association authorized to receive payments due producers who market their milk through such cooperative association, the aggregate of payments calculated pursuant to (a) of this section, for all producers certified to the market administrator by such cooperative association as having authorized such cooperative association to receive such payments.

(2) On or before the 20th day after the end of each delivery period, the market administrator shall pay, subject to the provisions of § 965.11, direct to each producer who has not authorized a cooperative association to receive payments for such producer, the amount of the payment calculated for such producer pursuant to (a) of this section.

§ 965.10 Expense of administration—
(a) Payment by handler. As his pro rata share of the expense which will be necessarily incurred in the maintenance and functioning of the office of the market administrator and in the performance of the duties of the market administrator, each handler, with respect to all-milk received from producers and produced by him during the delivery period, shall pay to the market administrator, on or before the 17th day after the end of each delivery period, that amount per hundredweight, not to exceed 2 cents, which is announced by the market ad-

ministrator on or before the 13th day after the end of the delivery period: Provided, That any cooperative association which has handled milk during the delivery period under the conditions set forth in § 965.2 (f) shall pay such prorata share of expense of administration on only that quantity of milk so handled.

§ 965.11 Marketing services—(a) Deductions. The market administrator shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator) from the payments made pursuant to § 965.9 (b), with respect to the milk of those producers for whom the marketing services set forth in (b) of this section are not being performed by a cooperative association which the War Food Administrator determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," for the purpose of performing the services set forth in (b) of this section.

(b) Marketing services to be rendered. The moneys received by the market administrator pursuant to (a) of this section shall be expended by the market administrator for market information to, and for the verification of weights, samples, and tests of milk of, producers for whom a cooperative association, as described in (a) of this section, is not performing the same services on a comparable basis, as determined by the market administrator, subject to review of the War Food Administrator.

§ 965.12 Payments to cooperative associations—(a) Eligibility. Upon application to the War Food Administrator, any cooperative association duly organized under the laws of any State which he determines, after appropriate inquiry or investigation, to be conforming to the provisions of such laws and with the standards set forth in § 965.11 (a); to be operating as a producer-controlled marketing association exercising full authority in the sale of the milk of, and assuming responsibility for payments to. its members; to be maintaining individually or in collaboration with other qualified cooperative associations, a competent staff for dealing with marketing problems and to be complying with all provisions hereof applicable to such cooperative association, shall be entitled, under the further conditions hereinafter specified, to receive payments from the date of its qualification as fixed by the War Food Administrator, until it has been found by the War Food Administrator, after notice and opportunity for hearing, that it has failed to continue to meet any condition set forth in this section for the receipt of such payments:

(1) At the rate of one-half cent per hundredweight on all milk (i) marketed by it in the manner indicated above on behalf of members, and (ii) on which reports and payments have been made as required under §§ 965.4 and 965.8, and 965.10, except that payment at this rate shall not be made on milk with respect to which the same association is eligible to receive payment under (2) of this paragraph.

weight on all milk which is received from members at any plant operated by such an association, or subsidiary thereof, and which is included in the computations made pursuant to § \$65.7.

(b) Payment. The market adminis-

(2) At the rate of 3 cents per hundred-

trator shall, upon notice of the filing of an application by a cooperative association, retain each delivery period in the producer-settlement fund such sum as he estimates is ample to make payments to the applicant, to be held in reserve until the War Food Administrator has ruled upon said application and shall, when the application has been ruled upon by the War Food Administrator, make payment or issue credit out of such reserves in accordance with said ruling and shall release the balance of the reserved sums, if any, for disposition pursuant to § 985.7 (a) (4); and shall on or before the 20th day of each delivery period thereafter, make such payments or issue credit therefore out of the producer-settlement fund, subject to verification of the facts upon which the amount of payment is based.

(c) Reports. Each cooperative association qualified to receive payments pursuant to this section shall, from time to time, as requested by the market administrator, make reports to him with respect to its conformity with any of the conditions for qualification or to the use of such payments and shall file with him a copy of its balance sheet and operating statement at the close of each fiscal year.

(d) Suspension. The market administrator shall suspend payment upon his own initiative or upon request by the War Food Administrator or by such officer of the War Food Administration or United States Department of Agriculture as he may designate, by giving written notice to a cooperative association and to the War Food Administrator whenever there is good reason to believe that such association is no longer qualified to receive payment. Such suspended payments shall be aggregated and held in reserve until the War Food Administrator, after notice and opportunity for hearing, has appraised the performance of the cooperative and either has ordered a partial or complete payment of funds held in reserve to the cooperative or has disqualified such cooperative. in which event the balance of funds held in reserve shall be released for disposition pursuant to § 965.7 (a) (4).

§ 965.13 Effective time, suspension, or termination—(a) Effective time. The provisions hereof, or any amendment hereto, shall become effective at such time as the War Food Administrator may declare and shall continue in force until suspended or terminated.

(b) Suspension or termination. Any or all provisions hereof, or amendments hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the War Food Administrator may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

(c) Continuing power and duty of the market administrator If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: Provided, That any such acts required to be performed by the market administrator shall, if the War Food Administrator so directs be performed by such other person, persons, or agency as the War Food Administrator may designate.

(1) The market administrator, or such person as the War Food Administrator may designate, shall (i) continue in such capacity until removed by the War Food Administrator (ii) account from time to time for all receipts and disbursements and, when so directed by the War Food Administrator, deliver all funds on hand, together with the books and records of the market administrator or such other person to such person as the War Food Administrator shall direct; and (iii) execute, if so directed by the War Food Administrator, such assignments or other instruments necessary or appropriate to vest in such per son full title of all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) Liquidation after suspension or termination. Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the War Food Administrator may designate, shall, if so directed by the War Food Administrator, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 965.14 Agents. The War Food Administrator may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 965.15 Emergency price provision. Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any sub-sidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: Provided, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the a applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: Provided further That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the War Food Administrator determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the War Food Administrator to be equivalent to or comparable with the price specified.

Issued at Washington, D. C., this 10th day of January 1944, to be effective on and after the 24th day of January 1944.

TITLE 29—LABOR

Chapter IX-War Food Administration (Agricultural Labor)

PART 1107—SPECIFIC WAGE CEILING · REGULATIONS

On August 28, 1943, the Economic Stabilization Director promulgated amended regulations relating to wages and salaries (8 F.R. 11960, 12139, 16702), by virtue of authority vested in the President by the act of October 2, 1942, entitled "An Act to Amend the Emergency Price Control Act of 1942, to aid in preventing inflation, and for other purposes" (Pub. No. 729, 77th Cong. 2d Sess.), as amended by the Public Debt Act of 1943, entitled "An Act to increase the debt limit of the United States, and for other purposes" (Pub. No. 34, 78th Cong. 1st Sess.). and vested in turn by the President in the Economic Stabilization Director under Executive Order 9328 dated April 8, 1943 (8 F.R. 4681). These regulations conferred on the War Food Administrator authority to administer the provisions thereof relating to the stabilization and limitation of salaries and wages paid to agricultural labor. In the exercise of the authority so conferred on the War Food Administrator, the following regulations relating to specific wage ceilings of agricultural labor are hereby promulgated:

1107.1. Purpose.

Definitions. -1107.2

Areas, crops and classes of workers. 1107.3

1107.4 Wage rates.

1107.5 Applications for adjustments.

justments.
1107.7 Limitation on effect of adjustments granted by State WFA Wage Boards. 1107.8 Effect of unlawful payments.

1107.9 Procedure for determination of violations.

AUTHORITY: §§ 1107.1 to 1107.9, inclusive, issued under 56 Stat. 765, 56 U.S.C. Supp. II 961 et seq., as amended by Pub. Law No. 34, 78th Cong.; E.O. 9250, 7 F.R. 7871, E.O. 9328, 8 F.R. 9681; regulations of Economic Stabilization Director, dated August 28, 1943, 8 F.R. 11960, 12139, 16702.

No. 16-2

§ 1107.1 Purpose. From time to time heretofore the War Food Administrator has issued, pursuant to § 4001.7 of the general regulations, specific wage ceiling regulations governing the wages and salaries of agricultural labor with respect to areas, crops, classes of employers, or otherwise. From time to time in the future the War Food Administrator will issue further wage celling regulations with respect to areas, crops, classes of employers, or otherwise, of agricultural labor, in accordance with said § 4001.7 of the general regulations and § 1100.7 of the regulations relative to salaries and wages of agricultural labor. The purpose of the present regulations is to provide general-provisions for all such future specific wage ceilings. All future specific wage ceiling regulations will contain only designations of areas, crops. classes of employers, or otherwise affected thereby, the wage or salary rates applicable thereto and such other special provisions as may be necessary. The provisions of this part will be applicable to each specific wage ceiling regulation hereafter issued and each such regulation shall be considered a part of this part. Specific wage ceiling regulations outstanding as of the date of issuance of this part will be unaffected by this part unless or until such outstanding regulation's are amended or revised, at which time they will be issued in accordance with the terms of this part.

§ 1107.2 Definitions. When used in these regulations, unless otherwise distinctly expressed, or manifestly incom-

patible with the intent thereof:
(a) The term "act" means the Act of October 2, 1942 (Pub. No. 729, 77th Cong.), entitled "An Act to Amend the Emergency Price Control Act of 1942, to aid in preventing inflation, and for other purposes," as amended by the Public Debt Act of 1943 (Pub. No. 34, 78th Cong.) entitled "An Act to increase the debt limit of the United States and for other purposes."

(b) The term "general regulations" means amended regulations (relating to wages and salaries), promulgated by the Economic Stabilization Director on August 28, 1943 (8 F.R. 11960, 12139, 16702), as amended or supplemented.

(c) The term "regulations relative to salaries and wages of agricultural labor" means the regulations promulgated by the War Food Administrator on January 17, 1944 (9 F.R. 655), as amended or supplemented.

(d) The term "specific wage ceiling regulations" means determinations made and public notices issued with respect to areas, crops, classes of employers, or otherwise, of agricultural labor, pursuant to § 4001.7 of the general regulations.

(e) The term "Administrator" means the War Food Administrator, and any person, or agency authorized by him to carry out the purposes and provisions of this part and other regulations issued by him pursuant to his authority under the "general regulations."

(f) The term "Director" means the Director of the Office of Labor, War Food Administration,

(g) The term "wage board" means a State WFA Wage Board established pursuant to § 1100.4 of the regulations relative to salaries and wages of agricultural labor.

(h) The term "person" means any individual, partnership, corporation, asso-ciation, business trust, or any other or-ganization or group of persons, whether

incorporated or not.
(i) The term "in contravention of the act" means in contravention of the act of October 2, 1942 (referred to in paragraph (a) above), Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4631), the general regulations, this part, and any other orders, rulings, or regulations promulgated under said act.

(j) The terms "approval of the Administrator" and "determination by the Administrator" shall include approval or determination, as the case may be, by an agent or agents of the Administrator, duly authorized to perform such acts.

§ 1107.3 Areas, crops, and classes of workers. The areas, crops, and classes of workers or otherwise of agricultural labor which will be subject to these reg-. ulations will be defined in determinations made and public notices issued establishing wage or salary rates as set forth in § 1107.1.

§ 1107.4 Wage rates. Notwithstanding the provisions of any contract or other commitment, no payments of wages or salaries to agricultural labor described in any determination and public notice issued pursuant to this part shall be made in excess of the maximum rates set forth in any such determination and public notice, without the approval of the War Food Administrator under the procedure provided for in these regulations: Provided, That if an employer was paying a particular employee doing the same type of work at a higher wage or salary rate between January 1, 1942 and September 15, 1942, such employer may pay such employee at the wage or salary rate paid during that perlod.

§ 1107.5 Applications for adjustments. (a) Any appeals for relief from hardships resulting from the determination and public notice of maximum wages or salaries for any type of agricultural labor issued pursuant to this part and any applications for adjustment in such wages and salaries shall be filed by the em-ployer or the employee with the State WFA Wage Board for the State in which the employee works. That wage board, after conducting such investigation as may be required and reviewing such applications for appeal, shall have the authority to make such determinations as are consistent with the intent of these regulations and the applicable determination and public notice. Three members of such a wage board shall constitute a quorum to act upon such applications and appeals. Such wage board shall forward a copy of all its rulings on such applications and appeals to the Administrator. Each such ruling of a wage board shall be final, subject only to the

Administrator's right of review on his own initiative. Any reversal or modification of such a ruling by the Administrator shall take effect from the date the affected party is notified thereof or at such later date as is specified in the notification: Provided, however, That if a ruling denying an application for permission to make a wage increase is overruled, the final ruling by the Administrator shall incorporate the effective date of the adjustment.

(b) Any increases in or payments of wages or salaries above the maximum rates established in any determination and public notice issued by the Administrator will be in violation of this part if made without approval. The increase or payment will only be lawful from the date specified in the ruling which grants

the application or appeal.

(c) If an appeal for relief from hardship or an application for adjustment of wages and salaries is granted by a wage board pursuant to paragraph (a) of this section, the employer shall post in a conspicuous place available to his employees a copy of the ruling of the board. If any of the employees cannot read the English language but can read another language or languages, the ruling shall also be posted in the same manner in such other language or languages.

§ 1107.6 Standards to be used by State WFA Wage Boards in making determinations relative to appeals and adjustments. State WFA Wage Boards may make determinations on appeals for relief from hardship and applications for adjustment in wages and salaries only in the following instances:

(a) Reasonable adjustments may be made in case of employees paid on a weekly, monthly, or annual basis in cases of promotions, reclassifications, merit increases, length of service, and incentive payments, provided that such adjustments do not increase the level of production costs appreciably.

(b) Reasonable adjustments may be made where an employee is paid on an hourly or piece rate basis in case of:

(1) Incentive payments,

(2) Sparse yield in parts of the areas affected as a result of which certain workers or groups of workers are unable to earn an amount fairly comparable to their estimated earning capacity under the normal yield on which the wage celling is based,

(3) Unusual weather and atmospheric conditions which reduce to below normal the number of working hours per day and hence reduce the daily earnings below a

reasonable level, or

(4) Other unusual circumstances beyond the control of the employer or the employees which prevent the latter from earning an amount fairly comparable to their estimated earning capacity under normal circumstances.

The burden of justifying an appeal or application for adjustment shall in each instance be upon the employer or employee seeking such appeal or such ad-

justment.

§ 1107.7 Limitation on effect of adjustments granted by State WFA Wage Boards. No increase in salary or wage

payments which is granted by a State WFA Wage Board upon either an appeal for relief from hardship or an application for adjustment shall furnish the basis either to increase prices or to resist otherwise justifiable reductions in prices, or furnish the basis for further wage or salary increases.

§ 1107.8 Effect of unlawful payments—(a) Amounts disregarded. In any case where the Administrator determines, under the procedure set forth herein, that a salary or wage payment has been increased in contravention of these regulations or of any determination and public notice issued by the Administrator, the amount of the salary or wage paid or accrued at the increased rate, shall be disregarded by all executive departments and all other agencies of the Government for the purposes of:

(1) Determining costs or expenses of the employer for the purpose of any law or regulation, either heretofore or hereafter enacted or promulgated, including the Emergency Price Control Act of 1942 or any maximum price regulation

thereof;

(2) Calculating deductions under the revenue laws of the United States; or

(3) Determining costs or expenses under any contract made by or on behalf of the United States.

(b) Criminal penalties. Any person, whether an employer or an employee, who wilfully violates any provision of this part or any determination and public notice issued by the Administrator, shall, upon conviction thereof, be subject to a fine of not more than \$1,000.00, or to imprisonment for not more than one year, or to both such fine and imprisonment.

§ 1107.9 Procedure for determination of violations—(a) Wage boards. Wage boards are, pursuant to § 1100.4 relative to salaries and wages of agricultural labor, authorized to conduct hearings on behalf of the War Food Administrator for the purpose of making findings of fact and recommendations with respect to alleged violations of specific wage ceiling regulations. For such hearings three members of the wage board shall constitute a quorum and the chairman of the wage board, or temporary chairman in the absence of the regular chairman, shall act as presiding officer at the hearings, administer oaths and affirmations, and rule on motions, requests, and on the admission and exclusion of evidence.

(b) Preliminary investigation: Preliminary investigations of alleged unlawful wage or salary payments shall be made by representatives of the Administrator. A report of investigation shall be submitted to the Regional Attorney, United States Department of Agriculture, for consideration. He shall forward the report, with his recommendations, to the board. If, after consideration of such report and recommendations the wage board is of the opinion that there is reasonable cause to believe that a violation has occurred, the wage board shall request the alleged violator to appear at a hearing before the wage board at a place designated by the wage board.

(c) Notice. Notice of the hearing shall be served on the alleged violator not less than ten (10) days prior to the date of the hearing. Such notice shall set forth (1) the time and place of the hearing, (2) a concise statement of the allegations of fact which constitute a basis for the proceeding, (3) a statement informing the alleged violator that he may be represented by counsel at the hearing and will be given full opportunity to present written or oral testimony and to examine and cross-examine witnesses on all matters relating to the charges, and (4) a statement informing the alleged violator that failure to appear will not preclude the wage board from taking testimony, receiving proof and making findings and recommendations with respect to the charges.

(d) Conduct of the hearing. The rules of evidence prevailing in courts of law and equity shall not be controlling. The test of admissibility shall be the reliability, relevancy, and probative force of the

evidence offered.

All testimony shall be given under oath and a written transcript of the hear-

ing shall be made.

The presiding officer shall afford reasonable opportunity for cross-examination of the witnesses. At the close of the hearing, the presiding officer may, at his discretion, allow a short period for the presentation of oral argument, or for a summary of the facts disclosed at the hearing and, if he deems it advisable, may allow briefs to be filed within a period prescribed by him, not to exceed five (5) days.

(e) Findings and recommendations. Upon conclusion of the hearing, if a majority of the wage board is satisfied that the charge has been sustained by a preponderance of the evidence, it shall find accordingly. Findings of fact and recommendations shall be prepared, subscribed by the concurring members of the wage board and submitted to the Administrator, together with a transcript of the proceedings. A copy of the findings of fact and recommendations shall be served on the alleged violator. After consideration of the findings and recommendations, the Administrator shall determine whether the alleged violator has made salary or wage payments in contravention of these regulations or any determination and public notice issued by him. A copy of such determination shall be served by registered mail on the alleged, violator.

(f) Petition for reconsideration. Within five (5) days after receipt of a copy of the Administrator's determination, the alleged violator may file with the War Food Administrator, Washington, D. C., a petition for reconsideration of such determination. Such petition may be accompanied by any affidavits or briefs which the alleged violator desires to submit. Within a reasonable time after receiving such a request for reconsideration, the Administrator shall affirm, modify, or reverse his original determination, or direct a further hearing to be held. Such further hearing to be held. Such further hearing shall follow the procedure prescribed for the original hearing. The determination of the Administrator shall be final

and shall not be subject to review by The Tax Court of the United States or by any court in any civil proceedings: Provided, however That nothing herein is intended to deny the right of any employer or employee to contest in The Tax Court of the United States or in any court of competent jurisdiction the validity of:

(1) Any provision in this regulation on the ground that such provision is not

authorized by law, or
(2) Any action taken or determination made under this regulation, on the ground that such action or determination is not authorized, or has not been taken or made in a manner required, by law.

Chapter IX-War Production Board

Subchapter B-Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676; as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

Part 921—Aluminum and Magnesium [Supplementary Order M-1-g, Interpretation 1]

The following interpretation is issued with respect to Supplementary Order

A paint manufacturer may not deliver more than one gallon of aluminum paint or other aluminum coating, or more than two pounds of aluminum pigment, in any one month to

any retail outlet, whether or not the outlet is completely owned by him, unless the retail outlet furnishes him with orders supported by ratings of AA-5 or higher, or unless he has the written specific authorization of the War Production Board to do otherwice. The foregoing restriction is set forth in paragraph (c) of Order M-1-g, and applies to deliveries to a paint manufacturer's own retail outlets because of § 944.12 of Priorities Regulation

Issued this 21st day of January 1944. WAR PRODUCTION BOARD. By J. Joseph Whelan, Recording Secretary.

PART 962-IRON AND STEEL

[Supplementary Order M-21-g, Revocation]

HEAT-RESISTANT CHROMIUM OR CHROMIUM-NICKEL ALLOY IRON AND ALLOY STEEL

Section 962.8 Supplementary Order M-21-g is revoked. This revocation does not affect any liabilities incurred under the order. The manufacture and delivery of heat-resistant chromium and chromium-nickel alloy iron and alloy steel remain subject to all other applicable regulations and orders of the War Production Board.

PART 1157—CONSTRUCTION MACHINERY 1 [Limitation Order L-53, as Amended January 21, 1944)

TRACK-LAYING TRACTORS

Section 1157.11 Limitation Order L-53 is amended to read as follows:

§ 1157.1 Limitation Order L-53-(a) What this order does. This order re-

stricts the sale and delivery of tracklaying tractors..

- (b) Definitions. For the purposes of this order:
- (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Producer" means any person en-- gaged in the manufacture of track-laying tractors.

(3) "Dealer" means any person engaged in the business of acquiring unused track-laying tractors for sale.

- (4) "Track-laying tractor" means a vehicle powered by an internal combustion engine, used for pushing or pulling heavy loads and obtaining traction from a crawler or track-type device.
- (5) "Unused" when applied to tracklaying tractors means any track-laying tractor which has never been delivered to an ultimate consumer.
- (c) Restrictions on sale or delivery. No producer or dealer shall sell or deliver any unused track-laying tractor to any person, and no person shall accept any sale or delivery of any unused tracklaying tractor unless the sale or delivery is specifically authorized by the War Production Board on Form WPB-1319.3 However, this provision shall not restrict any sales or deliveries authorized by the War Production Board prior to January 21, 1944.
- (d) Miscellaneous provisions—(1) Applicability of regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.
- (2) Violations. Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.
- (3) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. This letter should be filed with the field office of the War Production Board for the District in which is located the plant or branch of the appellant to which the appeal relates.
- (4) Communications. All reports required to be filed hereunder and all other communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board.

> PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[General Limitation Order L-193 as Amended Jan. 21, 1944]

CONVEYING MACHINERY AND MECHANICAL POWER TRANSMISSION EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials, and in the engineering and other facilities, used in the manufacture of conveying machinery and mechanical power transmission equipment, for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.52 General Limitation Order L-193—(a) Definitions. For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Conveying machinery" means any new machinery (and any important component part thereof) used for the mechanical handling of materials, including pneumatic tube delivery systems; except (i) belting, (ii) farm machinery, (iii) machinery or parts used on board ship in the operation of any vessel owned or operated by the Army, Navy, Maritime Commission, or War Shipping Administration, or used in the operating of · aircraft, tanks, ordnance, or similar combat equipment, (iv) power and hand lift trucks, (v) cranes, hoists and platform elevators, (vi) construction mixers, pavers, graders, drag lines and power shovels, and similar construction machinery, (vii) cars and car dumpers, (viii) steel mill tables, (ix) sintering conveyors, (x) metal pig conveyors, (xi) underground mining machinery including slope conveyors, and (xii) portable conveyors as defined in Limitation Order L-287.

(3) "Mechanical power transmission equipment" means new equipment (and any important component part thereof) of the following kinds (except equipment or parts used in the operation of any vessel owned or operated by the Army, Navy, Maritime Commission, or War Shipping Administration, or used in the operation of aircraft, tanks, ordnance. or similar combat equipment):

(i) Open and enclosed gearing for transmitting more than 1/4 horsepower; except marine propulsion gears, gears manufactured by a person for incorpo-

ration into other machinery also produced by him, gears built into turbines, and gears used on household, manually powered, automotive, or farm ma-

(ii) Mechanical drives and parts thereof for transmitting more than 1/4 horsepower; except belting, drives manufactured by a person for incorporation into other machinery also produced by him, and drives used on household, manually powered, automotive, or farm machinery.

(4) "Order" includes any arrangement for the delivery of conveying machinery or mechanical power transmission equipment, whether by purchase and sale, lease, rental or otherwise.

(5) [Deleted Oct. 26, 1943](6) [Deleted Oct. 26, 1943]

(7) "Manufacture" means fabrication or shop assembly of conveying machinery or mechanical power transmission equipment, or any component part thereof; but does not include the making of engineering drawings, blue prints, designs, estimates, or surveys.

(8) [Deleted Oct. 26, 1943] (9) "Anti-friction bearings" means all types of ball, needle and roller bearings. (b) Restrictions on acceptance of orders.

(1) [Deleted Oct. 26, 1943]

(2) [Deleted Oct. 26, 1943]

(3) On and after May 15, 1943 no person shall accept any order for any conveying machinery or mechanical power transmission equipment unless the order is rated AA-5 or higher. This restriction shall not apply to orders under which unused machinery or equipment is returned to the person from whom it was purchased.

(4) [Deleted Oct. 26, 1943] (c) Restrictions on manufacture and delivery.

(1) [Deleted Oct. 26, 1943]

(2) Except as otherwise provided in paragraph (c) (3) hereof, on and after October 7, 1942 no person shall manufacture or deliver, and no person shall knowingly accept the delivery of, any conveying machinery or mechanical power transmission equipment, or parts therefor unless such machinery or equipment or parts are manufactured in accordance with the restrictions on the use of materials prescribed in Schedule A hereto: Provided, however, That parts fabricated or processed, prior to October 7, 1942 to the point where other use is impracticable, may be used in fulfillment of any order at any time.

(3) The limitations and restrictions of

paragraph (c) shall not apply: (i) To the manufacture or delivery of any conveying machinery or mechanical power transmission equipment in the process of manufacture on October 7, 1942 in fulfillment of any order accepted by the manufacturer prior to August 1,

(ii) For ninety days following October 7, 1942, to the manufacture or de-livery of any conveying machinery or mechanical power transmission equipment in the process of manufacture on October 7, 1942 in fulfillment of any order accepted by the manufacturer-on

or after August 1, 1942 but prior to October 7, 1942.

(iii) For ninety days following October 7, 1942 to the manufacture or delivery in fulfillment of any order for the use of the Army, Navy, Maritime Commission or War Shipping Administration, to the extent that any applicable specifications of the Army, Navy, Maritimo Commission, or War Shipping Administration, require construction, design, or materials not in accordance with the provisions of this order. As used herein, the terms "Army", "Navy", "Maritime Com-mission" or "War Shipping Administration" shall not include any privately operated plant or shipyard financed by or controlled by any of those organizations, or operated on a cost-plus-fixed-fee basis. For the purposes of this paragraph (c) an order for machinery or equipment shall be deemed to have been in the process of manufacture on October 7, 1942 only if fabrication or assembly of a component part, in fulfillment of such order and not for inventory or stock, was begun prior to October 7, 1942.

(d) [Deleted Oct. 26, 1943] (e) [Revoked May 10, 1943]

(f) Miscellaneous provisions.(1) [Deleted Oct. 26, 1943]

(2) [Deleted Oct. 26, 1943]

(3) Other limitation orders. Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of or otherwise acquire any raw materials, semiprocessed parts, or finished products in contravention of the terms of any L, M, or R order, or amendments or supplements thereto, or other regulation of the War Production Board effective at the date of any such sale, delivery, or other transfer. Where the limitations imposed by any other L, M or R order are applicable to the subject matter of this order, the most restrictive limitation shall apply, unless otherwise specifically provided herein.

(4) Violations. Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities as-

sistance by the War Production Board.
(5) Appeals. Any appeal from the provisions of this order shall be made by filing, with the Field Office of the War Production Board for the District in which is located the plant or branch of the appellant to which the appeal relates, either Form WPB-1477 (formerly PD-500) or a letter in triplicate, referring to the provision appealed from and fully stating the grounds for the appeal.

(6) Communications. All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, General Industrial Equipment Division, Washington 25, D. C. Ref.: L-193.

Issued this 21st day of January 1944.

WAR PRODUCTION BOARD. By J. Joseph Whelan, Recording Secretary:

SCHEDULE A--RESTRICTIONS AND LIMITATIONS ON THE USE OF MATERIALS IN CONVEYING. MACHINERY OR MECHANICAL POWER TRANS-MISSION EQUIPMENT

- (a) As used in this schedule, (1) "alloy steel" and "alloy iron" mean alloy steel and alloy iron as defined in Order M-21-a, as amended and supplemented from time to time; and (2) "line shafting" means any shaft driving two or more machines or any single length or rigidly coupled lengths of shafting supported by three or more bearings.
- (b) Conveying machinery. The materials listed below are restricted or prohibited in the construction of conveying machinery. as prescribed below; except as the War Production Board may waive compliance with any such restriction or prohibition, upon application by the manufacturer or purchaser by letter or other communication, setting forth pertinent facts disclosing the necessity for such waiver,
- (1) Bins, bunkers, hoppers and tanks (when used as part of conveying machinery or equipment). No metal shall be used in bins, hoppers, tanks, or bunkers having a capacity of more than 400 cubic feet level filled, except in clips, gussets, bolts, nuts, screws, lag screws, hinges, tension rods, reinforcing bars or mesh, washers, and hopper bottoms of less than 400 cubic feet capacity. No steel plate of a thickness in excess of 1/4 inch shall be used in bins, tanks, or hoppers with a capacity of less than 400 cubic feet, level filled. No liner plates of steel shall be used in steel bins, steel tanks, or steel hoppers. Steel liners for wood bins or wood bunkers shall not exceed No. 10 U.S. gage in thickness.
- (2) Conveyors and elevators. No alloy steel or alloy iron, except Hadfield manganese steel, shall be used for parts of chains (other than chains for the transmission of power), except for (i) pins and bushings in steel conveyor chains or cast sprocket chains, or (ii) chains used in the heat zone of heat treating and metallurgical furnaces, to the extent permitted under Order M-21-g. No bushings other than carbon steel or gray iron shall be inserted in bores of conveyor chain rollers. .

(3) Conveyor and elevator sprockets. No alloy steel or alloy iron except Hadfield manganese steel shall be used in chain sprocket wheels, except for sprockets to be used in the heat zone of heat treating and metallurgical -furnaces, to the extent permitted under Order M-21-g.

(4) Conveyor structures. (i) No metal, except for steel in clips, bearing brackets, gussets, bolts, nuts, screws, lag screws, hinges, tension rods, reinforcing bars, reinforcing mesh, and washers, shall be used in the following structural parts:
(A) Supports for fixed conveyor frames,

except supports for gravity, live roll and package conveyors.

(B) Fixed bulk material belt conveyor frames (including stringers).
(C) Conveyor galleries.

(D) Belt conveyor decking.

(E) Walkways, toe boards, handrails, stairways, and platforms.

- (F) Guards or housing used only for protection, except those used for mechanical power transmission drives. (G) [Deleted Jan. 21, 1944]

 - (H) [Deleted Jan. 21, 1944]
 - (I) [Deleted Jan. 21, 1944]

(ii) Trough linings for fixed conveyors shall not exceed No. 10 U.S. gage in thickness.
(iii) Steel for chutes and spouts chall not

exceed 310 inch in thickness. (iv) No steel liner plates chall be used in

steel chutes or steel spouts.

(v) Steel linings for wood chutes or wood spouts shall not exceed No. 10 U. S. gage in thickness.

(vi) No copper bearing sheets or plates shall be used.

(vii) Steel troughing belt carriers and steel return belt idler rolls shall not exceed 5 inches nominal diameter on idlers up to 42 inches; and shall not exceed 6 inches on idlers 42 inches and over; provided that this limitation shall not apply to parts used for repair or replacement purposes.

(c) Mechanical power transmission equip-ment. The materials listed below are restricted or prohibited in the construction of mechanical power transmission equipment as prescribed below; except as the War Production Board may waive compliance with any such restriction or prohibition, upon application by the manufacturer or purchaser by letter or other communication, cetting forth pertinent facts disclosing the necessity for such waiver.

(1) Anti-friction bearings. (i) Anti-friction bearings shall not be used in hangers. pillow blocks, loose pulleys, and clutch pulleys for line shafting except for the follow-

ing purposes, as certified by the purchaser:

(A) The reduction or elimination of fire hazards resulting from the combustible nature of the material being processed.

(B) Reduction or elimination of waste due

to spoilage.
(C) Reduction of starting or running loads where the use of anti-friction bearings will correct an overload pertaining to the primary source of power.

(D) The repair or replacement of bearings for line shafting: Provided, however, That no anti-friction bearings shall be used for repair or replacement purposes for line chatters. not previously equipped with such bearings.

The above mentioned certification by the purchaser shall be included in or chall accompany the purchase order, shall be signed by a duly authorized official of the purchaser, and shall be in the following form:

"The undersigned hereby certifies that the anti-friction bearings covered by order __ (here give

order number or other partinent description) are for the following purposes as permitted by the provisions of Item (c) (1) of List A to Order L-193:

(here fill in the purposes for which the

bearings will be used)

.___ Company

Such certification shall be deemed a representation to the War Production Board as well as to the supplier to whom the order is tendered.

(ii) No alloy steel or alloy iron shall be used in bearing housings.
(2) Bearings. No alloy steel or alloy iron

shall be used in bace, cap or liner castings for sleeve bearings; or in bearing hangers, base plates, floor stands, or wall brackets for line shafting.

(3) Chains. (i) No alloy steel or alloy iron, except Hadfield manganeco steel, chall be used in cast sprocket chains.

(ii) No alloy steel shall be used in cemifinished or finished roller chain, bushed drive chain, or silent chain except in thece parts thereof which the manufacturer made of

alloy steel prior to January 21, 1943.

(4) No alloy steel or alloy iron, except Hadfield manganese steel, shall be used in chain sprocket wheels.

(5) Shafting appliances. No alloy steel or alloy from chall be used in the construction of chafting appliances in rigid couplings, collars, or pulleys and cheaves.

(6) Gears. No alloy steel or alloy from chall be used in east teeth or molded teeth gears and pinions or in gear housings.

(d) East proofing. No metallic plating or coating shall be used in the rust proofing of conveyor machinery or mechanical power transmission equipment, except that gal-vanizing may be used to prevent contamination of food or in the case of anchor bolts cat in concrete and subject to corrosive chemical action.

[Limitation Order L-211, Schedule 9 as Amended Jan. 21, 1944]

OIL COUNTRY TUBULAR GOODS

§ 3102.10 Schedule 9 to Limitation Order L-211-(a) Purpose and scope. This schedule prescribes certain standards for the manufacture of oil country tubular goods, as herein defined. The schedule does not relate to use; oil country tubular goods made in accordance with this schedule may be used for any purpose, and other types of tubular material may be used in oil and gas wells, in each case subject to any restrictions contained in other orders of the War Production Board or the Petroleum Administration for War.
(b) Definition. "Oil country tubular

goods" means oil well casing, tubing and drill pipe.

(c) Restrictions on sizes and specifications. No person shall produce, fabricate or deliver oil country tubular goods except as set forth in American Petroleum Institute Specification for Casing, Drill Pipe and Tubing, API Standard No. 5-A, dated May 1942, and Supplement No. 1 thereto, dated December 1942, or in List 1 attached hereto. However the use of Bessemer or openhearth steel in the manufacture of casing and tubing shall be optional with the manufacturer and no purchaser may specify the type of steel to be used on his order.

(d) Acceptance of delivery. No person shall accept delivery of any oil country tubular goods which he knows or has reason to believe were produced, fabricated or delivered in violation of the provisions of paragraph (c).

(e) Exceptions. (1) The provisions of paragraphs (c) and (d) shall not apply to any oil country tubular goods:

(i) The production, fabrication, delivery or acceptance of which is specifically authorized in writing by the War Production Board, or

(ii) For which an order was entered prior to April 30, 1943, provided shipment of the entire order is made on or before June 30, 1943, or (iii) Oil well casing produced by elec-

tric fusion welding.

(2) The provisions of paragraph (c) shall not prohibit:

(i) Waiver by the purchaser of any of the inspection or test requirements of the specifications prescribed in para-

graph (c), or

(ii) Delivery or acceptance of any oil country tubular goods which because of errors in manufacture do not conform to the requirements of paragraph (c), providing such requirements are waived by the purchaser or procuring agency, or

(iii) The production, fabrication, delivery, or acceptance of lap-weld tubing or lap-weld casing with V type thread,

(iv) The production, fabrication, delivery, or acceptance of any oil country tubular goods having thread dimensions or types of joints other than those prescribed in paragraph (c), provided the purchaser endorses on the purchase order a statement signed by an authorized official, either manually or as provided in Priorities Regulation No. 7, substantially as follows:

The special threads or special types of joints specified in this order are necessary to the successful installation and operation of the pipe covered by said order, and none of the standard thread dimensions or types of joints specified in Schedule 9 to Limitation Order L-211 issued by the War Production Board, will meet the service requirements to which said pipe is to be applied.

Name of Signature of Tit Purchaser Authorized Official

Such statement shall constitute a representation to the seller and to the War Production Board, and may be relied on by the seller unless he knows or has reason to believe it to be false.

(f) Records. Each person owning or possessing oil country tubular goods excepted by the provisions of paragraph (e) shall retain records of such material available for inspection by duly authorized representatives of the War Production Board.

Issued this 21st day of January 1944.

LIST 1—ADDITIONAL PERMITTED SIZES OF CASING AND TUBING .

Note: List 1 amended in its entirety Jan. 21, 1944. CASING, SEAMLESS AND ELECTRIC WELD, GRADE J-55

Size, outside diameter (inches)	Wall thick- ness (inches)	Nominal weight per foot (pounds)
896	0.264	24.00

STANDARD TUBING (NON-UPSET), SEAMLESS AND ELEC TRIC WELD, GRADES F-25, H-40, J-55 AND N-80

Size nominal		Wall thick- ness (inches)	
2	2, 375	0.167	4.00
	3, 500	.216	7.70

The above sizes for seamless and electric weld easing and tubing apply only to short thread easing and to standard non-upset tubing. In all respects other than wall thickness, and weight per foot, such easing and tubing shall conform to the requirements of American Petroleum Institute Specification for Casing, Drill Pipe and Tubing, API Standard No. 5-A, dated May 1942, and Supplement No. 1 thereto, dated December 1942.

LAP-WELD CASING

Size, outside diameter (inches)	Wall thick- ness (inches)	Nominal weight per foot (pounds)
514	0.304	17. 00
658	.185	13. 00
7	.272	20. 00

PART 3133—PRINTING AND PUBLISHING [Limitation Order L-240, Direction 1]

RED CROSS SUPPLEMENT

The following direction is issued pursuant to Limitation Order L-240:

§ 3133.6 Direction 1 to Limitation Order L-240. The American Red Cross, in connection with its War Fund Drive, has requested certain publishers to distribute with their newspapers a special supplement depicting the work of this organization. A four-page, tabloid-size, rotogravure section has been printed at the expense of the Red Cross and will be furnished to selected newspapers without charge. These newspapers, in turn, may distribute the section to their subscribers without charge either to them or to the Red Cross. The section contains no advertising, and no masthead or follo lines identifying the particular newspaper, which acts merely as a distributing agent. The paper consumed in printing the section has been deducted from the commercial printer's quota under Order L-241.

Under these circumstances, newspaper publishers are not required to deduct from their consumption quotas under Order I-240 the paper consumed in printing the abovementioned Red Cross Section, notwithstanding paragraph (b) of the order.

PART 3288—PLUMBING AND HEATING
EQUIPMENT

[General Limitation Order L-185 as Amonded Jan. 20, 1944]

WATER HEATERS

§ 3288.51 General Limitation Order L-185—(a) Definitions. (1) "Fuel oil" means any liquid petroleum classified as grade No. 1, 2, 3, 4, 5, or 6, including Bunker "C" fuel oil, kerosene, range oil, gas oil and any other liquid petroleum product used for the same purpose as the above designated grades.

(2) "Direct fired water heater" means any device for the direct transference of heat produced by the combustion of coal, wood, fuel oil or gas, or derived from solar rays, to the water of a domestic hot water supply system. The term includes, but is not limited to, colls, .side-arm water heaters, bucket-a-day stoves, laundry stoves, dome type water heaters, service water tank heaters, automatic storage water heaters, instantaneous or continuous flow water heaters, underfired storage water heaters, and solar water heaters. The term does not include any tank used in conjunction with any direct fired water heater, the manufacture of which is governed by Limitation Order L-199, any low pressure cast iron boiler designed for the purpose of heating water to provide heat for the interior of a building by means of circulating steam or hot water.

(3) "Indirect water heater" means any device to which steam or hot water is piped for the transference of the heat of such steam or hot water to the water of a hot water supply system, or the water of a hot water space heating system. The term includes, but is not limited to, coils, side arm water heaters, storago water heaters, submerged type water heaters, hot water generators, and preheaters, also instantaneous or continuous flow water heaters having coil bundles 12 inches in diameter or less, (if other than circular in cross section and the internal cross section area is 113 square inches or less). The term does not include any heat exchanger having coil bundles greater than 12 inches in diameter, or any tank used in conjunction with any indirect water heater, the manufacture of which is governed by Limitation Order L-199. It is not intended by the foregoing definition to include any product which is controlled by Orders L-172 or M-293.

(4) "Hot water supply system" means any system of supplying hot water used in whole or in part for bathing, washing, cleaning, cooking or other similar purposes. The term does not include any system for supplying hot water solely for specialized industrial or agricultural purposes.

(5) "Hot water space heating system" means any system which is designed for the purpose of heating the interior of a building or other structure (including ships) by utilizing the heat of hot water

ships) by utilizing the heat of hot water.

(6) "Metal jacket" means any metal covering, lining, or portion thereof (but not any metal band two inches or less in width used to support a jacket which holds dry insulation) for any direct fired or indirect water heater, except any metal covering, lining, or portion thereof which conducts flue gases, water, or steam through and to the outside of a direct fired or indirect water heater, and except any ferrous metal wire netting used as a base for the wet application of insulating material.

(7) "Copper base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the

alloy.

(8) "Producer" means any person who manufactures, fabricates or assembles new direct fired or indirect water heaters.

(b) Manufacture and installation of metal jackets. No person shall manufacture, fabricate or assemble any metal jacket, or install any metal jacket (whether or not for repair or replacement), except

ment), except

(1) To fill a specific contract, subcontract or purchase order for a metal
jacket to be used as part of the equipment of any aircraft or any vessel other
than a pleasure craft; and

(2) For any direct fired water heater

using fuel oil as fuel:

(c) Use of copper in manufacture. No person shall use in the manufacture, fabrication or assembly of any direct fired or indirect water heater any copper or copper base alloy, except

For repair or replacement parts;
 For temperature, pressure, vacuum or electrical controls, safety devices

or valves;

(3) To fill a specific contract, subcontract or purchase order for use in the laundry, bakery or hospital projects of the Army, Navy, War Shipping Administration or Maritime Commission of the United States;

(4) For use as part of the equipment of any aircraft or any vessel for delivery to or for the account of the Army, Navy, War Shipping Administration or Maritime Commission of the United States:

(5) For use by the Army or Navy of the United States outside the forty-eight States and the District of Columbia; or

(6) For coils and tubular units built of tubing of 1½" inside diameter or less for indirect water heaters only. However, the shells, heads, tube plates, spacer plates, terminal outlets and other cast parts of indirect water heaters shall be of ferrous metal or non-metallic materials.

(d) Use of copper in installation or repair and replacement parts. (1) No person shall, in any repair or replacement, use or install parts containing in the aggregate more than two pounds of copper or copper base alloy if the weight of

the copper or copper base alloy so used or installed exceeds by more than one pound the weight of copper and copper base alloy replaced.

(2) All copper and copper base alloy replaced in any repair shall be delivered by the person making the repair to a scrap dealer or other person specified under Supplementary Order M-9-b.

(e) Restriction on production. (1) During the period from July 1, 1943 to June 30, 1944 inclusive, no person shall manufacture; fabricate or assemble units of direct fired or indirect fired water heaters as herein defined, in excess of the percentage of his 1941 unit production of the same classification of hot water heaters, which is indicated in Schedule A hereto attached.

(2) The restrictions of paragraph (e) (1) do not apply to the manufacture, fabrication or assembly of direct fired or indirect water heaters for delivery-to or for the account of the Army, Navy, War Shipping Administration or Maritime Commission of the United States.

(f) [Deleted Jan. 20, 1944]

(g) Appeals. Any appeal from the provisions of this order shall be filed on Form WPB-1477 (formerly PD-500) with the field office of the War Production Board, for the district in which is located the plant or branch of the appellant to which the appeal relates.

(h) Communications. All communications concerning this order shall, unless otherwise directed be addressed to the War Production Board, Plumbing and Heating Division, Washington 25,

D. C., Reference L-185.

(i) Reports. Each producer shall execute and file with the War Production Board such reports as the War Production Board may specify from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(j) Violations. Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

Issued this 20th day of January 1944.

PART 3293—CHEMICALS

[Concervation Order M-54, as Amended Jan. 21, 1944]

LIOLASSES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of molasses for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.91 Conservation Order M-54—(a) Definitions. For the purposes of this order:

(1) "Molasses" means any molasses, sirup, sugar solution, or any form of fermentative sugar (derived from sugar cane or sugar beets) and hydrol (corn sugar molasses). The term does not, however, include sugar as defined in Rationing Order No. 3 or sugar intended for and used for manufacture into sugar as so defined, or edible molasses as defined in Food Distribution Order No. 51. Blackstrap molasses is any final molasses produced in the manufacture of sugar from sugar cane or from the refining of raw sugar and includes all beet molasses produced in the manufacture of sugar from sugar beets. Invert molasses is any molasses made from sugar cane without extraction of sugars. For the purpose of this order one gallon of invert molasses is to be construed as one and a half gallons of blackstrap molasses and one gallon of hydrol is to be construed as one gallon of blackstrap molasses.

(2) "Producer" means any person engaged in the production of molasses and includes any person who has molasses produced for him pursuant to toll agreement.

(3) "Importer" means any person who transports molasses in any manner into the continental United States. Release from the bonded custody of the United States Bureau of Customs shall be deemed a transportation.

(4) "Primary distributor" means any person, other than an importer or a producer, who sells molasses which he has acquired (other than as broker) from an importer or a producer.

(5) "Secondary distributor" means any person, other than an importer, producer or primary distributor, who sells molasses which he has acquired (other than as broker) from some person other than an importer or producer.

(6) A person may, at the same time, be an importer, a producer, a primary distributor and a secondary distributor. His clasification, in a particular case, will be determined by the source of the molasses involved; i. e., with respect to molasses imported, he will be an importer, with respect to molasses acquired from a producer, he will be a primary distributor, etc.

(7) "Broker" means any person who buys and sells molasses on a fee basis as agent either for the buyer or the seller or both.

(8) "Class 1 purchaser" means any person who requires molasses in the manufacture of any one or more of the following products:

(i) Insecticides (except as provision is made therefor in paragraphs (a) (14) and (d) (3) hereof).

(ii) Lactic acid.

- (iii) Graphite paste.
- (iv) Printing rollers.
- (v) Dye stuffs.
- (vi) Ink.

(vii) Ephedrine.

(viii) Sugar for human consumption (produced from beet molasses).

(ix) Denatured rum for flavoring.(x) Biological and pharmaceutical products for human and veterinary uses. and any person who requires molasses for any one or more of the following purposes.

(xi) Dust extraction.

(xii) Leather tanning.

(9) "Class 2 purchaser" means any person who requires molasses in the manufacture (including custom grinding) of mixed feeds (including molasses treated beet pulp).

(10) "Class 3 purchaser" means any person' who requires molasses in the manufacture of any one or more of the

following products:

(i) Yeast.

(ii) Citric acid.

(11) "Class 4 purchaser" means, any person who requires molasses in the manufacture of vinegar and any person who requires molasses for foundry pur-

(12) "Class 5 purchaser" means any person who requires molasses in the manufacture (including blending and/or packaging) of any one or more of the

following products:

(i) Molasses (edible). (ii) Sirup (edible).

(13) "Class 6 purchaser" means any person who requires molasses in the manufacture of other products for human consumption (not specified above).

(14) "Class 7 purchaser" means any person who requires molasses for sale directly (without the intervention of any other handler) to persons who require the same for ensilage direct feed or

insect control.
. (15) "Calendar quarter" means the several three month periods of the year commencing January 1, April 1, July 1,

and October 1.

(16) "Calendar quarterly supply" means a quantity of molasses not in excess of the quantity used by a purchaser listed above during a corresponding calendar quarter in the twelve month period ended June 30, 1941. Purchasers shall determine a calendar quarterly supply with respect to each use specified in the applicable subparagraph above. Quantity shall in all cases be computed on a blackstrap molasses basis.

(17) "30 day supply" means a quantity of molasses not in excess of onetwelfth of the quantity used by a pur-chaser listed above during the twelve month period ended June 30, 1941. Purchasers shall determine a 30 day supply with respect to each use specified in the applicable subparagraphs above. Quantity shall in all cases be computed on a blackstrap molasses basis.

(18) "Fiscal year" means the twelve month period commencing October 1 and

ending September 30.

(19) "Yearly supply" means a quantity of molasses not in excess of the quantity used by a purchaser listed above during the twelve month period ended June 30, 1941. Purchasers shall determine a yearly supply with respect to each use specified in the applicable subparagraph above. Quantity shall in all cases be computed on a blackstrap molasses basis.

(b) Applicability of regulations. This order and all transactions affected hereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(c) Restrictions on deliveries. thing in Priorities Regulation 1 to

the contrary notwithstanding:

(1) No Class 1, 2, 3, 4, 5, 6 or 7 purchaser shall, during any calendar quarter (fiscal year in the case of a Class 3 or 5 purchaser), accept deliveries of molasses in excess of the quantity set forth below less any quantity in excess of a 30 day supply on hand on the first day of the calendar quarter (fiscal year in the case of a Class 3 or 5 purchaser) in which delivery is to be made:

(i) Class 1 purchaser—during any cal-endar quarter, 40% of a calendar quarterly supply if molasses is required for the manufacture of sugar for human consumption (produced from beet molasses); 100% of a calendar quarterly supply if molasses is required by such Class 1 purchaser for the manufacture of any other product.

(ii) Class 2 purchaser-during any calendar quarter, 50% of a calendar quarterly supply.

· (iii) Class 3 purchaser—during a fiscal

year, 130% of a yearly supply.

(iv) Class 4 purchaser—during any calendar quarter, 130 per cent of a calendar quarterly supply, if molasses is required for the manufacture of vinegar; 110 per cent of a calendar quarterly supply, if molasses is required for foundry purposes.

(v) Class 5 purchaser—during a fiscal year, 100% of a yearly supply.

(vi) Class 6 purchaser-during any calendar quarter, 100% of a calendar quarterly supply.

(vii) Class 7 purchaser-during any calendar quarter, 100% of a calendar

quarterly supply.

(2) Prior to delivery of molasses, within the limitations of paragraph (c) (1) hereof, the prospective deliveree, if he be a Class 1, 2, 4, 6 or 7 purchaser, shall submit to the deliveror a certificate in substantially the following form, properly filled out and manually signed by a duly authorized official:

The delivery, in the calendar quarter ended , of gallons of molasses (blackstrap molasses basis), in connection with which this cer-tificate is furnished, will not, taking into consideration molasses received and to be re-ceived during the same calendar quarter from all sources and inventory on hand on the first day of such calendar quarter, be in

excess of per cent of a calendar quarterly supply to which the undersigned, excess of as a Class purchaser, is entitled pursuant to General Preference Order No. M-54. amended, with the terms of which order the undersigned is familiar. Dated:

> (Name of purchaser) (Duly authorized official)

Prior to delivery of molasses, within the limitations of paragraph (c) (1) hereof, the prospective deliveree, if he be a Class 3 or 5 purchaser, shall submit to the deliveror a certificate in substantially the following form, properly filled out and manually signed by a duly authorized official:

The delivery of gallons of molasses (blackstrap molasses basis), in connection with which this certificate is fur-nished, will not, taking into consideration molasses received and to be received during monasses received and to be received duffing this fiscal year from all sources and inventory on hand on the first day of this fiscal year, be in excess of percent of a yearly supply to which the undersigned, as a Class purchaset, is ontitled pursuant to General Proference Order No. M-54, amended, with the terms of which order the undersigned is familiar. Dated:

> (Name of purchaser) (Duly authorized official)

(3) No person shall knowingly deliver molasses to any Class 1, 2, 3, 4, 5, 6 or 7 purchaser in violation of the terms of paragraphs (c) (1) and (2) hereof.

(4) Except as otherwise provided in paragraph (d) hereof no deliveries of molasses shall be made by any producer, primary distributor, secondary distributor or importer unless the same shall have been specifically authorized by the War Production Boardiand no person shall accept delivery of molasses if such delivery would be made in violation of the foregoing clause.

(5) Restrictions on beet molasses. No Class 2 purchaser shall use beet molasses for the manufacture of mixed feeds.

(d) Permissive deliveries. Subject to the provisions of Priorities Regulation No. 1, amended, (and more particularly the inventory provisions thereof) and paragraphs (f) and (g) hereof, the following deliveries of molasses shall not be subject to the provisions of paragraph (c) (4) hereof:

(1) Within the limitations of paragraphs (c) (1) and (2) hereof, deliveries to purchasers specified in paragraph (a)

hereof.

(2) Deliveries to primary distributors and secondary distributors for purposes of resale. All quantities of molasses, delivery of which primary distributors and secondary distributors accept, shall be subject to allocation, re-distribution or re-delivery in accordance with specific directions which the War Production Board may from time to time hereafter issue.

(3) Deliveries by a Class 7 purchaser (of molasses to which he is entitled pursuant to paragraph (c) (1) (vii) hereof) to persons who require molasses for ensilage, direct feed or insect control.

(4) Deliveries of any one of the products specified in paragraph (a) (12) hereof which after manufacture (including blending and/or packaging) fall within the definition of molasses.

(5) Deliveries originating, completed and for use outside of the continental

United States.

(6) Deliveries to an importer originating outside of the continental United States.

(e) Restrictions on consumption. Unless otherwise authorized by the War Production Board, no purchaser specified in paragraph (a) hereof shall, during any calendar quarter commencing with the month of January, 1942, use or consume more molasses:

(1) Than he would be permitted to receive during such calendar quarter, in the case of a Class 1, 2, 4, 6 or 7 purchaser (assuming that such purchaser had no molasses on hand on the first day of the calendar quarter).

(2) Than 130% of a calendar quarterly supply, in the case of a Class 3 purchaser.

(3) Than a calendar quarterly supply, in the case of a Class 5 purchaser.

(f) Restrictions with respect to beverage spirits. Except as may be otherwise provided by the War Production Board, after January 15, 1942, no person shall deliver, use, or accept delivery of molasses for the manufacture of beverage spirits.

(g) Restrictions on export. No molasses shall be exported by any person except upon express authorization of the

War Production Board.

(h) Intra-company transactions. The prohibitions or restrictions contained in this order with respect to deliveries shall, in the absence of a contrary direction, apply notably to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of the same or any other enterprise owned or controlled by the same person.

(i) Prior authorizations. Specific mail or telegraphic authorizations heretofore issued by the War Production Board by way of relief from the provisions of this order as it existed prior to March 27, 1942, shall not be prejudiced or in any

manner affected hereby.

(j) Reports. Reports shall be made at such times, on such forms and with respect to such matters as shall be prescribed by the Chemicals Division of the War Production Board. Importers shall notify the Chemicals Division of the War Production Board of the importation of molasses into the continental United States at least fifteen (15) days prior to movement of the same from the place of origin. The following persons shall fill out and file with the Chemicals Division of the War Production Board the forms set forth below at the times and in the manner prescribed in said forms:

Manufacturers (using molasses) of yeast, citric acid and edible sirup or molasses—Form PD-456.

Manufacturers (using molasses) of Alcohol—Form PD-457.

Producers, importers and primary distributors of molasses—Form PD-458. (E) Notification of customers. Producers, distributors and importers shall, as soon as practicable, notify each of their regular customers of the requirements of this order, but the failure to give such notice shall not excuse any person from the obligation of complying with the terms of this order.

(1) Violations. Any person who wilfully violates any provision of this order or who in connection with this order wilfully conceas a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priority assistance.

(m) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(n) Exemptions. None of the restrictions, prohibitions or requirements contained in this order shall apply to the delivery, acceptance of delivery or use of molasses outside of the continental United States.

Issued this 21st day of January 1944.

Part 3294—Iron and Steel Production [Supplementary Order M-21-a as Amended Jan. 21, 1944]

ALLOY IRON AND ALLOY STEEL

§ 3294.2 Supplementary Order. M-21-a—(a) Definitions. For the purposes of this order:

(1) "Alloy steel" means any steel containing any one or more of the following elements in the following amounts:

Manganese, maximum of range in excess of 1.65%. Silicon, maximum of range in excess of 0.65%. Copper, maximum of range in excess of 0.60%. Aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, vanadium, ziconium, or any other alloying element in any amount opecified or known to have been added to obtain a desired alloying effect.

(2) "Alloy iron" means any iron containing any one or more of the following elements in the following amounts:

Manganese, maximum of range in excess of 1.65%. Silicon, maximum of range in excess of 5.00%. Copper, maximum of range in excess of 0.60%. Aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, vanadium, zirconium, or any other alloying element in any amount specified or known to have been added to obtain a desired alloying effect.

It does not include those materials commonly known as ferro-alloys.

(3) IRevoked Jan. 21, 1944]

(4) "Producer" means person who melts alloy iron or alloy steel.

(b) Purchasers' statements. Each person who orders alloy iron or alloy steel from a producer must state on his order the end use (by general classification and specific part name) for which such material will be used.

(c) Producers' melting schedules—(1) Castings. Each producer of alloy from or alloy steel castings must file for each month with the War Production Board, Ref.: M-21-a, a melting schedule on Form WPB-1770, in accordance with the official instructions for preparing that form.

(2) Rolled and forged products. Each producer of alloy iron or alloy steel other than castings must file for each month with the War Production Board, Ref.: M-21-a, a melting schedule on Form WPB-2933, in accordance with the official instructions for preparing that form.

(3) Changes in producers' schedules. The War Production Board may make such changes in any melting schedule as to it may seem appropriate and may from time to time issue supplementary directions with regard to melting of alloy iron and alloy steel.

(4) The reporting provisions of this order have been approved by the Bureau of the Budget pursuant to the provisions of the Federal Reports Act of 1942.

(d) Melling of alloy iron and alloy steel. No producer shall melt any alloy iron or alloy steel which he is required to report on Form WPB-1770 or WPB-2933, except in accordance with such melting schedule as approved or modified by the War Production Board, or in accordance with specific supplementary directions or authorizations of the War Production Board.

(e) Special directions. The War Production Board may from time to time issue directions as to facilities to be used in production and directions specifying as to any alloying element the quantities and proportions which may be used in making alloy iron or alloy steel, and whether and in what proportions, any such element is to be the metal, a ferrogalloy, reclaimed metal, scrap, a chemical compound or any other material containing such element.

(f) Restrictions of deliveries under toll agreements. Except pursuant to specific authorization or direction of the War Production Board, no person shall make or accept delivery under any toll agreement whereby one person melts alloy iron or alloy steel for another person.

(g) Exceptions. The provisions of this order shall not apply to "tool steel"

as defined by Supplementary Order M-

[Supplementary Order M-21-a, Direction 4] USE OF ALLOY SCRAP IN MELTING ALLOY STEEL

The following direction is assued pursuant to paragraph (e) of Supplementary Order M-21-a. This direction covers the use of alloy steel scrap in the melting of alloy steel.

- (a) For the purposes of this direction, the term "alloy steel" does not include the fol-
- (1) Stainless and valve steels covered by Direction 3 to Order M-21-a,
- (2) Carbon steels treated with boron or vanadium addition agents,
- (3) Manganese, silicon, or silicon-manganese steels with or without boron or vanadium addition agents.
- (b) In melting alloy steel in any calendar month, each producer must use alloy steel scrap of the kinds listed below in not less than the following amounts. These amounts, are stated in terms of percentages of the total weight of alloy steel ingots or melted metal for castings produced by the producer in the particular month:

	Electric furnace steel	Open hearth steel
Scrap (solids and turnings) Turnings (including machine shop turnings) Machine shop turnings	Percent 60	Percent 60

(c) For example, a producer who produces in the month of January 10,000 tons of electric furnace alloy steel ingots must consume in his melting at least 6,000 tons of alloy steel scrap added to the furnace charge either directly or through hot metal. Of the alloy steel scrap he consumes, at least 800 tons must be in the form of alloy steel turnings; and of the alloy steel turnings he consumes, at least 400 tons must be in the form of machine shop turnings.

(d) Any request for an exception from the terms of this direction shall be made by filing a letter setting forth the relief requested and the reasons why such relief should be allowed. Such requests should be addressed to Scrap Section, Steel Division, War Production Board, Washington 25, D. C. The War Pro-duction Board may grant specific written exceptions in appropriate cases. The approval of a melting schedule shall not constitute the grant of an exception.

Issued this 21st day of January 1944.

PART 3294—IRON AND STEEL PRODUCTION [Supplementary Order M-21-h, as Amended. Jan. 21, 1944]

TOOL STEEL

§ 3294.111 * Supplementary Order M-21-h-(a) Definitions. For the purpose of this order:

- (1) "Tool steel" means any steel to be used for the manufacture of tools for use in mechanical fixtures for cutting, shaping, forming, and blanking of material, either hot or cold, or for precision gauges. It is not deemed to include steel for use as shanks in the manufacture of tipped or welded tools or for hand tools such as chisels, pliers, screw drivers, wrenches, centering punches and nailsets.
- (2) "Alloy steel" means alloy steel as defined in paragraph (a) of Supplementary Order M-21-a.
- (3) "High-speed steel" means alloy tool steel of either of the following classes:
- (i) "Class A high-speed steel" means either alloy steel containing not less than .60% carbon and more than 3.0% molybdenum; or alloy steel containing not less than .60% carbon, 6.0% or less tungsten, and more than 3.0% molybdenum.

(ii) "Class B high-speed steel" means alloy steel containing not less than .55% carbon and more than 12.0% tungsten.

Other alloying elements may be present in the high-speed steels of either class, but steel not containing the elements named, in the amount specified. shall not be deemed high-speed steel.

(4) "Producer" means any person who melts tool steel.

(b) Purchasers' statements. order placed with a producer for steel to be used for the manufacture of tools for use in mechanical fixtures cutting, shaping, forming or blanking of material, either hot or cold, or for precision gauges, shall include the statement, "This is an order for 'tool steel' " over the signature, either manual or as provided in Priorities Regulation No. 7, of a duly authorized official of the purchaser, which will constitute a representation to the producer and to the War Production Board that the steel ordered will be used only for one or more of the above purposes.

(c) Producer's forms. Each producer shall file monthly with the War Production Board, Ref: M-21-h, schedules on form WPB-949. This reporting provision has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(d) [Revoked Jan. 21, 1944]

(e) Special instructions. The War Production Board may from time to time issue directions as to facilities to be used in production and directions specifying as to any alloying element the quantities and proportions which may be used in making tool steel, and whether

j

and in what proportions any such element is to be the metal, a ferroalloy, reclaimed metal, scrap, a chemical compound or any other material containing such element.

(i) [Deleted Nov. 18, 1943] (j) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) Appeal. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the ap-

PART 3296—SAFETY AND TECHNICAL EQUIPMENT 1, (1)

[General Limitation Order 1-39, bs Amended Jan. 21, 1944]

FIRE PROTECTIVE, SIGNAL AND ALARM EQUIPMENT

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of maternals entering into the production of fire protective, signal and alarm equipment, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3296.1 ¹ General Limitation Order L-39—(a) Definitions. For the purpose of this order:

(1) "Fire protective equipment" means: sprinkler systems, couplings, playpipes and allied fittings, fire hose, fire hydrants, fire pumps, hose dryers, hose racks, indicator posts, lightning protection systems, piped extinguishing systems, portable fire extinguishers including back pack types, foam generators, stirrup pumps, water spray nozzles,and all other fire protective equipment for preventing or extinguishing fires, excepting self-propelled motorized fire apparatus and auxiliary units including

¹ Formerly Part 962, § 962.9.

¹Formerly Part 1073, § 1073.1.

trailer, skid, front mounted and portable

apparatus.

(2) "Signal or alarm equipment" means fire, police, and protective alarm and signal systems, including central station, proprietary, auxiliary and automatic fire alarms; watchmen's time recording, burglar, bank vault, hold-up and intrusion systems; and all other instruments and devices to detect, signal or warn against fire or other casualty, except air raid warning devices.

(3) "Dry-pendant sprinkler head" means a sprinkler head for use in a pendant position on a dry pipe system and permanently attached to an extension nipple so as to exclude water from

the nipple.

(4) "Incendiary bomb control equipment" means any pump, device, instrument, or material designed for the removal, control or extinguishment of incendiary bombs.

(5) "Stirrup pump" means a manually operated pump used to draw water or other liquid from a separate container

to extinguish or control fires.

(6) "Air raid warning device" means any siren, whistle, horn, diaphone, signal or device used or intended for use to warn or signal civilians in connection with air raids or other war hazards.

(7) "Copper base alloy" means any alloy in the composition of which the weight of copper equals or exceeds 40 percent of the weight of all metal in

the alloy.

- (b) General restrictions—(1) Restrictions on use of scarce materials. Except as provided in paragraph (c) of this order, no person shall incorporate in any fire protective equipment, signal or alarm equipment, air raid warning device, or parts thereof, any aluminum, bismuth, cadmium, chromium, copper, mercury, monel metal, pickel, tin, stainless steel, zinc, or alloy of any of said metals, asbestos, rubber or synthetic rubber, except to the extent permitted in Appendix A hereof.
- (2) Restrictions on fire hose couplings. Except as provided in paragraph (c) of this order, no brass fire hose couplings in the possession or control of any coupling manufacturer, fire hose manufacturer or distributor on April 27, 1942, shall be transferred, sold or incorporated in the manufacture or assembly of any fire hose.
- (3) Restrictions on foam extinguishers. No person shall purchase or accept delivery of any foam extinguisher except for use in the protection of inflammable liquids, and no person shall sell or deliver any foam extinguisher which he knows or has reason to believe will be used in violation of this paragraph (b) (3).
- (4) Restrictions on manufacture of alkali metal (loaded stream) extinguishers. No person shall in any quarter complete the manufacture of any type of alkali metal salt solution (loaded stream) extinguishers in excess of 25 percent of the total of such type (irrespective of size) manufactured by such person during the twelve month period ending November 30, 1941, except to fill purchase orders or contracts from any agency or government listed in subdivisions (i).

(ii), and (iii) of this paragraph (b) (4). In determining the number of extinguishers manufactured during said twelve month base period ending November 30, 1941, extinguishers manufactured to fill contracts or purchase orders from or for delivery to, any of the following shall be excluded:

(1) The Army or Navy of the United States, United States Maritime Commission, War Shipping Administration, Panama Canal, Coast and Geodetic Survey, Coast Guard, Civil Aeronautics Authority, National Advisory Committee for Aeronautics, the Office of Scientific Research and Development;

(ii) The Government of any of the following countries: the United Kingdom, Canada, and other dominions, Crown Colonies and protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia. and Yugoslayia:

(iii) Any agency of the United States Government for delivery to or for the account of any country listed above or any other country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(5) Restrictions on manufacture of stirrup pumps. No person shall manufacture any stirrup pump, or part thereof, except to fill purchase orders from the Army or Navy of the United States, the United States Maritime Commission, War Shipping Administration, Defense Supplies Corporation, or from any agency of the United States Government for delivery to or for the account of the government of any country pursuant to the Act of March 11, 1941, entitled, "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(6) [Deleted Jan. 21, 1944]

(7) Restrictions on sale and delivery of signal or alarm equipment and air raid warning devices. (1) No person shall sell, deliver or install any signal or alarm equipment costing \$50 or more, or any air raid warning device costing \$25 or more, except to or for the account of:

(a) The Army or Navy of the United States, the United States Maritime Commission or the War Shipping Adminis-

tration;

(b) Any other person who has been specifically authorized by the War Production Board on Form WPB-1319 (formerly PD-556) to receive the specific equipment or device and who has delivered to his supplier a copy of such form signed in the name of the War Production Board.

(ii) Each person seeking authorization under the preceding subparagraph (7) (i) (b) to receive any signal or alarm equipment costing \$50 or more or any air raid warning device costing \$25 or more shall prepare Form WPB-1319 (formerly PD-556) in quintuplicate in the manner prescribed therein, subject to the following instructions:

(a) The form should be filed only by the person (owner or tenant) desiring to receive or have installed on his premises the specified equipment or device, and should not be filed by the person (supplier) desiring to make delivery of or to install such equipment or device. How-

ever, the owner or tenant may obtain from his supplier any information he needs in filling out the form.

(b) In describing the equipment or device for which application is made, give a complete description of the items involved, including the manufacturer's name. Do not fill in columns (b) and (c) of Part II.

(c) Under section (5) of Part III state in detail why the equipment or device applied for is needed at this time. (The application cannot be passed on unless a full statement is made on this subject.)

(d) Do not fill in sections (6), (7) and

(8) of Part III.

(e) Do not fill in Part V.

(iii) In conjunction with the granting of specific authorization to receive signal or alarm equipment or air raid warning devices on Form WPB-1319 (formerly PD-556), the War Production Board may also assign-preference ratings to the authorized deliveries on such form. Any preference rating so assigned shall be applied and extended only in accordance with the terms of Priorities Regulation 3.

(8) Restriction on the manufacture of signal or alarm equipment. Except upon specific authorization by the War Production Board, no persons shall manufacture, install, deliver or accept delivery of any smoke, fire, or intrusion detector employing photo-electric principles, except to fill purchase orders from a purchaser listed in paragraph (b) (4) of this order and unless such item is for use on board ship.

(9) Restriction on the manufacture of air raid warning devices. No person shall manufacture, sell, purchase, deliver, install or accept delivery of any air raid warning device which requires for its operation a motor in excess of three

(3) horse power.

(10) Restrictions on sale and delivery of cotton rubber-lined fire hose. No person shall sell, deliver, purchase or accept delivery of any new cotton rubber-lined fire hose except pursuant to a purchase order hearing a preference rating of AA-5 or higher. However, the above restriction does not apply with respect to purchase orders for fire hose which had been placed before August 23, 1943, and which hear preference ratings of A-9 or higher.

(11) Restrictions on manufacture of incendiary bomb control equipment. Effective thirty days after January 20, 1943, no person shall manufacture any incendiary homb control equipment, except when and to the extent authorized by the War Production Board pursuant to application on Form PD-740, or to the extent permitted by paragraph (b) (5) of this order.

(c) Exceptions to paragraphs (b) (1) and (b) (2). (1) The restrictions of paragraphs (b) (1) and (b) (2) shall

not apply to:

(i) Brass fire hose couplings, rings, or hose line fittings, provided that such couplings, rings, or hose line fittings are delivered to or for the account of:

(a) The Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration, and are for use on board ship;

or (b) The Panama Canal; or

(c) Any person for use on board ships warranted by the United States Maritime Commission.

(ii) The restrictions of paragraph (b)

(1) shall not apply to:

(a) Carbon dioxide extinguishers manufactured in accordance with speciextinguishers fications of the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration; or

(b) Aluminum parts for signal or alarm equipment, if such parts were fabricated before January 23, 1942.

(d) Representations on orders from government agencies. Any purchase order or contract from any agency or government named in subparagraphs (i), (ii), or (iii) of paragraph (b) (4) of this order shall constitute a representation that the conditions exist under which such purchase order or contract may be filled within the terms of this order.' Said representation may be relied upon by the person with whom the purchase order or contract is placed and by his subcontractors and suppliers.

(e) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(g) Applicability of regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(h) Correspondence. Reports to be filed and other communications concerning this order shall be addressed to the War Production Board, Safety and Technical Equipment Division, Washington 25. D. C., Ref.: L-39.

Issued this 21st day of January 1944.

WAR PRODUCTION BOARD. By J. JOSEPH WHELAN, Recording Secretary.

APPENDIX A

In accordance with the provisions of paragraph (b) (1) of this order, the materials named in this Appendix A may be incorporated in the manufacture of fire protective equipment, signal or alarm equipment, and air-raid warning devices, and in component parts thereof, to the extent indicated in this Appendix A:

1) Aluminum, primary or secondary:

(i) In extinguishers for use in airplanes; (ii) As foil in electric condensers for fire, police and protective alarm systems, to the extent essential to the efficient functioning of such condensers and when approved by Underwriters' Laboratories, Inc., or Factory Mutual Laboratories;

(iii) (Secondary aluminum only) in zinc die castings.

(2) Bismuth:

 (i) As a component of fusible link alloy; (ii) Up to five and one-half (5½) per cent in solder.

(3) Cadmium, as a component of fusible link alloy.

(4) Chromium:

(i) For plating of parts of fire, police, and protective alarm systems and sprinkler heads to the extent essential to the efficient functioning of such systems or heads;

(ii) As a component of stainless steel, the use of which is permitted by paragraph (10)

hereof. (5) Copper or copper base alloys (where copper base alloys are permitted, the alloys used shall be of the lowest type and grade that are practical for the particular application) in:

(i) Pumps for vaporizing liquid extinguishers:

(ii) Lock nuts on removable hose connections;

(iii) Bodies, ends, inner chambers, valves and their component parts for vaporizing liquid and loaded stream extinguishers;

(iv) Either collars or caps (but not both)

on 2½-gallon foam extinguishers;
(v) Fittings, strainers, syphon tubes and valves for carbon dloxide and gas operated dry powder extinguishers;

(vi) Snap clamps, clamp pins and wire springs for "Jones" type fire hose couplings; (vii) Latch assemblies for "British" type

fire hose couplings to the extent essential to the efficient functioning of the parts; (viii) Swivels and wires for screw type fire

hose couplings;
(ix) Swivels, wires, and rollers for suction

hose couplings; (x) Couplings and rings for (a) potable water purification plants, (b) ¾ inch, 1 inch, and 1¼ inch chemical or booster hose, and (c) 5 inch and 6 inch suction hose; and 11/2 inch expansion rings;

(xi) Hose and hydrant adapters;

(xii) Swivels, wires, clappers and seats for Siamese connections;

(xiii) Playpipes made only from drawn, brazed sheet, or cast brass, provided that such playpipes are not more than 15 inches in length and are manufactured for connections

not larger than 2½ inches in diameter.

(xiv) Ball and cylinder type shut-off noz-

(XV) Nezzle tips for playpipes, and not exceeding 11/2" diameter at discharge ends;

(xvi) Portable deluge nozzles, not includ-

ing tips or handles;
(xvii) The following hydrant fittings to
the extent essential to their efficient functioning; valve seats, discs, guides, operating valve stems, stuffing boxes, bushings, rivets, retainer rings, and outlet nipples;

(xviii) The following indicator post and valve fittings to the extent essential to their efficient functioning: Valve stems; seats; discs; packing glands; glands of bonnet openings; extension stem operating washer,

rut and target mechanism; (xix) Parts of portable generators, engines and fixed piped systems to the extent essential to their efficient functioning (The parts referred to herein include generator bodies except bases, shut-off valves except handles, screens, check valves, inner chambers, heads, stopples, closing and other operating mech-

anisms.); (xx) Water spray nozzles;

(xxi) Valve seats, discs, stems, guides, and

clapper arms;

(xxii) The following parts of automatic sprinkler systems and signal or alarm equipment: Actuating, indicating, and recording units of alarm or signal systems; condenser parts; contacts; diaphragm assemblies; labels of inspection laboratories; links; tubing and fittings; valves not over 2 inches; wire and cables; impellers and rings for fire pumps

and for water flow alarms; deflectors on closed sprinkler heads if made of casting, but the alloy shall not contain more than 74 per cent copper; all other parts of closed sprinkler heads, but the alloy for frames shall not contain more than 88 per cent copper and shall be made without the use of primary copper or primary tin, and the alloy for lever arms shall contain no tin and not more than 74 per cent copper.
(xxiii) Impellers, retaining

bushings for fire pumps;

(xxiv) Watchmen's time recording systems where required for efficient functioning;

(xxv) The following parts of air raid warning devices: motors up to three horse power, actuating units, wire and cable, control and reducer valves only to the extent necessary to the efficient functioning thereof.

(xxvi) Name and identification plates of a gauge of .03125 inch or less for fire extinguishers which are to be used in aircraft

or on board ship.

(6) [Revoked.]
(7) Mercury, as required in check valves for automatic systems and in gravity tank

gauges.

(8) Nickel, in signal or alarm systems as a component of bi-metal thermal discs for thermostats, as plating for protection against corrosion where magnetic properties of nickel are essential, as a component of wire wound resisters, as a component of thermocouple wire and as a component of permanent mag-nets; and in signal or alarm systems for plating component parts of control mechanisms essential to the efficient functioning of the system, where less critical material as a substitute would not be suitable.

(9) Tin:

(i) As a component of fusible link alloy: and in dry pipe valve seat rings, but not to exceed fifty per cent in weight;

(ii) In copper base alloys the use of which is permitted by paragraph (5) hercof, but only where no tin-free alloy can be used, and only to the extent permitted by General Preference Order M-43;

(iii) Up to ten per cent by weight in metal for coating steel shells for vaporizing liquid

extinguishers;

(iv) In solder, provided that the tin content does not exceed that perhitted by General Preference Order M-43;

(v) As a component of foil for use in antiintrusion and anti-sabotage systems, to the extent essential to the efficient functioning of the equipment, provided that the use of tin for this purpose is properly authorized under General Preference Order M-43.

(10a) Stainless steel (non-nickel bearing) t

(i) In hinge plus in dry pipe valves of automatic sprinkler systems; in balls for check valves in dry pipe valves and accelerating equipment for automatic sprinkler systems; and in impeller shafts for fire pumps;

(ii) In nozzles and linings for automatio vaporizing liquid sprinkler units approved by Underwriters' Laboratories, Inc., or Factory

Mutual Laboratories;

(iii) In the following parts of signal or alarm systems: cylinders, ratchet pins, and small shafts for signal or alarm mechanisms where the use of any less scarce material is impracticable, mercury check valves, ball bearings, latching parts, and pileup and adjusting screws where the use of any less scarce material is impracticable.

(10b) Stainless steel (nickel bearing) in tour transmitter cylinders where the use of any less critical material is impracticable.

(11) Monel metal:

(i) In balls for check valves in dry pipe valves, accelerating equipment, and water flow alarms for automatic sprinkler systems;

(ii) In helical springs for fire detecting thermostats;

(iii) In vanes and pressure type flexible joints for water flow alarm devices.

(12) Zinc:

. (i) In essential parts of alarm and signal systems when a less critical material as a substitute would not be suitable;

(ii) In copper alloys, the use of which is

permitted by paragraph (5) hereof;
(iii) In die cast parts;
(iv) For protection against corrosion of iron or steel parts of lightning rods and fittings, extinguishers, pump tanks, fire hose couplings, expansion rings, open head sprinklers, deflectors on sprinkler heads, and as a protective coating for functional parts where ferrous metal has been substituted for copper base alloy.
(v) As sheet to the extent that corrosion-

resistant metal is essential to efficient functioning and galvanized steel sheet is not suit-

(13) Asbestos:(i) In gaskets for hydrants, fixed or portable foam applicator pipes, and alarm sys-

(ii) As packing for vaporizing liquid extinguishers

(14) Rubber and synthetic rubber, to the extent permitted by Rubber Order R-1, as amended, or to the extent permitted by any telief granted pursuant to an appeal taken in accordance with the provisions of that

PART 3293—CHEMICALS [Allocation Order M-370]

CHROME PIGMENTS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of chrome pigments for defense, for private account and for export; and the following order · is deemed necessary and appropriate in the public interest and to promote the national defense:

Definitions

\$ 3293.586 Allocation Order M-370—

(a) Meaning of certain terms. (1)

"Chrome pigments" means Class A and Class B pigments as defined herein.

(2) "Class A pigments" refers to C. P. chrome yellow, C. P. chrome orange, C.P. chrome green, C. P. molybdate chrome orange, and C. P. hydrated chromium oxide. The term includes extended, dry and wet dispersions of these pigments.

- (3) "C. P. chrome yellow" and "C. P. chrome orange" mean the pigments which are reaction precipitates consisting of normal or basic lead chromates or mixtures of these with or without other insoluble compounds of lead-Color Index 1270.1
- (4) "C. P. chrome green" means a pigment consisting of a precipitated mixture 1270 —and C. P. iron blue—Color Index 1288.
- . (5) "C. P. molybdate chrome orange" means a mixed crystal containing lead chromate, lead molybdate, and lead sulfate with or without other insoluble compounds of lead.
- (6) "C. P. hydrated chromium oxide" means a pigment approximately conforming to the formula Cr₂O(QH),— Color Index 1292.1

٠

- (7) "Class B pigments" refers to C. P. chromium oxide green and C. P. zinc chromate. The term also includes extended, dry and wet dispersions of these pigments.
- (8) "C, P. chromium oxide green" means a pigment approximately conforming to the formula Cr.O.—Color Index 1291.1

(9) "C. P. zinc chromate" means a pigment manufactured as a reaction precipitate of soluble chromates and a suit-

- able zinc compound—Color Index 1271.*
 (10) "Exempt order" means any purchase order for Class A pigments which (i) are to be delivered as pigments, or (ii) are to be used in the manufacture of any product (except printing ink) to be delivered, used on, or incorporated in, material or equipment to be delivered to, the United States Army, Navy, Marine Corps, Coast Guard, Maritime Commission, the War Shipping Administration, Bureau of Engraving and Printing, United States Government Printing Office, the Government of Canada, or to or for the account of any foreign country pursuant to the Act of March 11, 1941 (Lend-Lease Act).
- (11) "Quota order" means any purchase order for Class A pigments that is not an exempt order as defined above.
- (12) "Printing ink" includes any fluid or viscous material or composition of materials used in printing, impressing, stamping or transferring upon paper or paper-like substances, wood, fabrics or metals by the recognized mechanical reproductive processes employed in printing, publishing and related service industries.
- (13) "Pigment quota" means the amount of Class A pigments which any consumer may use or acquire in any calendar quarter for the manufacture of any product to fill quota orders. The table in Appendix D shows how to determine this quota.
- (14) "Producer" means any person engaged in the production of chrome pigments.
- (15) "Distributor" means any person who buys chrome pigments for the purpose of resale.
- (16) "Supplier" means a producer or distributor.
- (17) "Consumer" means any person who uses chrome pigments.
- Restrictions on Class A Pigments: Chrome · Yellow, Chrome Orange, Chrome Green, Molybdate Chrome Orange, Hydrated Chromium Oxide
- (b) Inapplicability of preference ratings. No person shall apply, extend, or give any effect to any preference rating heretofore or hereafter assigned, applied or extended for the delivery of Class A pigments.
- (c) Exempt orders, certification required. On and after January 21, 1944, any person may, without authorization of War Production Board, deliver or accept delivery of Class A pigments to fill an "exempt order" or to replace the total quantity of Class A pigments which was withdrawn from inventory to fill "exempt orders", but which had not been originally acquired to fill

"exempt orders": Provided, That the person accepting delivery furnishes to the person making the delivery, the Exempt Order Certification set forth in Appendix (The standard certification described in Priorities Regulation No. 7 may not be used instead.) There are no quantity restrictions on Class A pigments which may be used to fill "exempt orders." No person engaged in the business of manufacturing printing ink may use the Exempt Order Certification for any purchase order for Class A pigments which are to be used by him for

the manufacture of printing ink for sale. (d) Quota orders; delivery restrictions and certification. On and after January 21, 1944, no consumer shall accept delivery of Class A pigments in any cal-endar quarter, for the manufacture of any product to fill "quota orders", in excess of his "pigment quota" set forth in Appendix D for the manufacture of that product, unless War Production Board shall otherwise specifically authorize pursuant to application on Form WPB 2945. No supplier shall deliver Class A pigments to a consumer to fill "quota orders" unless the consumer furnishes the supplier with the Quota Order Certification set forth in Appendix C, or unless the supplier is specifically authorized by War Production Board on Form WPB 2946 to make the delivery. (The standard form of certification described in Priorities Regulation No. 7 may not be used instead.) This provision governs the total quantity of Class A pigments which a consumer may acquire in any calendar quarter to fill "quota orders". Paragraph (f) of this Order M-370 contains one further provision with which a consumer must comply when accepting delivery of Class A pigments to fill both "quota orders" and "exempt orders", Paragraphs (f) states an inventory restriction which controls the quantity of Class A pigments which a consumer may acquire at any one time within a calendar quarter.

(e) Quota orders. Use restrictions on Class A pigments. No consumer shall use Class A pigments in any calendar quarter, to manufacture any product, to fill "quota orders", in excess of his "pig-ment quota" set forth in Appendix D for the manufacture of that product, unless War Production Board shall otherwise specifically-authorize pursuant to application on Form WPB 2945.

(f) Consumer's inventory restrictions. No consumer shall accept any single delivery of Class A pigments which shall result in his having an inventory of such pigments:

(1) To fill "exempt orders", in excess of that quantity of Class A pigments which he will be required to use within the next sixty days in order to meet delivery dates under such "exempt orders"; and

(2) For the manufacture of any product to fill "quota orders", in excess of 2,000 pounds or his "pigment quota" as set forth in Appendix D (whichever is the greater) for the manufacture of that product, unless he shall have been otherwise specifically authorized by War Production Board, pursuant to application made by letter addressed to Chemicals

Bureau, War Production Board, Washington 25, D. C., Reference M-370, setting forth the reasons why he needs to exceed the inventory restrictions.

Restrictions on Class B Pigments: Chromium Oxide Green, Zinc Chromate

(g) Deliveries and use of Class B pigments. On and after February 1, 1944, no person shall deliver, accept delivery of, or use, Class B pigments except as specifically authorized by War Production Board, pursuant to applications filed on Forms WPB 2946 and WPB 2945

respectively.

(h) Exception for small deliveries of Class B pigments. On and after February 1, 1944, any consumer may withdraw from his inventory, or accept delivery from all sources, and use for any purpose but not for resale, in any calendar month, of not more than 25 pounds of chromium oxide green and not more than 50 pounds of zinc chromate without authorization from War Production Board: Provided, That he has not already received authorization from War Production Board to acquire in that month more than the small deliveries mentioned above. No supplier may deliver in any calendar month more than the aggregate quantity of Class B pigments authorized by War Production Board for such small deliveries.

Authorization Procedure for Chrome **Pigments**

(i) How the consumer obtains authorization. Each person requiring authorization to accept delivery in any calendar quarter of Class A pigments in excess of his "pigment quota" set forth in Appendix D, shall file with the Chemicals Bureau, War Production Board, three copies of Form WPB 2945 (formerly PD-600) on or before the 5th day of the second month of that calendar quarter. Each person requiring authorization to use Class A pigments from inventory in any calendar quarter in excess of his "pigment quota" set forth in Appendix D, shall file with the Chemicals Bureau, War Production Board, three copies of Form WPB 2945 at any time. Each person requiring authorization to use or accept delivery of Class B pigments in excess of the permitted small deliveries, shall file with the Chemicals Bureau, War Production Board, three copies of Form WPB 2945 on or before the 5th day of the month preceding the month in which delivery is requested. However, applications to use or accept deliveries of Class B pigments in February, 1944, may be made as soon as possible after January 21, 1944. In the case of both Class A and Class B pigments, one copy of Form WPB 2945 should be sent to the supplier. Instructions for filling out this form are set forth in Appendix A. One copy of Form WPB 2945 will be returned to the purchaser on which the War Production Board will indicate the quantity of chrome pigments which may be used or acquired.

(j) How the supplier obtains authorization. Each supplier requiring authorization to deliver Class A pigments in any

calendar quarter, shall file three copies of Form WPB 2946 (formerly PD-601) with the Chemicals Bureau, War Production Board, on or before the 15th day of the second month of that calendar quarter. Each supplier requiring authorization to deliver Class B pigments shall file three copies of Form WPB 2946 with the Chemicals Bureau, War Production Board, on or before the 15th of the month before the month in which delivery is requested. However, applications for delivery of Class B pigments during February, 1944, shall be filed as soon as possible after January 21, 1944. Instructions for filling out this form are set forth in Appendix B. One copy of Form WPB 2946 will be returned to the supplier on which War Production Board will indicate the quantities of chrome pigments which may be delivered.

General Provisons

(k) Special directives. War Production Board may from time to time issue special directives to any person with respect to the delivery and use of chrome pigments, notwithstanding the other provisions of this order.

(1) Changes in "pigment quota." War Production Board may from time to time make whatever changes it may deem necessary in the "pigment quota" for

Class A pigments.

(m) Approval of Bureau of the Budget. The reporting provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(n) Applicability of regulations. Except as provided in paragraph (b) above, this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from

time to time.

(o) Duration of specific authorizations. If it is not practicable for a supplier to make all deliveries of chrome pigments in the allocation period for which specifically authorized, he may complete them as early as practicable in the next allocation period, but the purchaser must place his order before the end of the allocation period and may not require postponement of delivery beyond ten days after the allocation period. Specific authorization to use chrome pigments shall be valid for forty-five days after receipt of the specific authorization or of the material allocated for the use, whichever is later. What chrome pigments are not used in this period may not be used for any purpose until further authorized or directed.

(p) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control

and may be deprived of priorities assist-

(q) Communications. All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-370.

Issued this 21st day of January 1944. WAR PRODUCTION BOARD. By J. JOSEPH WHELAN, Recording Secretary,

Appendix A—Instructions for Filing Appli-cations on Form WPB 2945 (Formerly PD-600) FOR SPECIFIC AUTHORIZATION TO USE OR ACCEPT DELIVERY OF CHEOME PIGMENTS

Section 1390.218b is added to read as follows:

SEC. 1390.218b Adjustable pricing. If the manufacturer wishes, he may agree with the buyer to charge a price which can be increased up to the maximum price in effect at the time of delivery.

Where the manufacturer has filed an application for adjustment under § 1390.218a, he may, in accordance with the provisions of that section, deliver at a price to be adjusted upwards in accordance with the action taken by the Office of Price Administration on his application. In all other cases, unless authorized by the Office of Price Administration, the manufacturer must not deliver at a price which is to be adjusted upwards in accordance with action taken by the Office of Price Administration after delivery. This authorization may be given only where: (a) a request for a change in the applicable price is pending; (b) authorization is necessary to promote production; and (c) it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price.

Chapter XIII—Petroleum Administration For War

[PAO 11, as Amended Jan. 1, 1944, Supp. Order 10]

PART 1515—PETROLEUM PRODUCTION OPERATIONS

OIL WELLS IN PORTIONS OF INDIANA, OHIO, KENTUCKY AND TENNISSEE

§ 1515.16 Supplementary Order No. 10 to Petroleum Administrative Order

No. 11, as amended January 1, 1944—(a) Scope of this order Except as otherwise modified by the provisions of any other order issued as a supplement to Petroleum Administrative Order No. 11, as amended January 1, 1944, or by the provisions of any specific exception or other grant of authority as provided for by Petroleum Administrative Order No. 11, as amended January 1, 1944, the provisions of this Order shall to the extent provided herein be applicable to the use of material in the drilling or deepening of, completing of, and providing of additions to, oil wells in those portions of the States of Indiana, Ohio, Kentucky, and Tennessee specified in Exhibit A, but not elsewhere.

(b) Definitions. The definitions of Petroleum Administrative Order No. 11,

as amended January 1, 1944, shall apply in this Order. In addition:

(1) "Designated area" means those portions of the States of Indiana, Ohio, Kentucky, and Tennessee specified in Exhibit A.

(c) Authorized uses of material in oil development drilling operations in the designated area. Material may be used to drill or deepen, complete, and provide additions to any oil well in the designated area drilled or deepened to and completed at a depth not exceeding 1800 feet, if the material is used in accordance with the following provisions:

(1) Where the oil well is drilled or deepened to and completed at a depth

not exceeding 1200 feet:

(i) The well must be located on a drilling unit upon which no other drilling or producible oil well is located, and no portion of which drilling unit is attributable to or falls within 150 feet of any other drilling or producible oil well located on the same lease or property. If the well is located on sectionalized land, the drilling unit must consist of one-half of a quarter of a quarter-quarter section. If the well is located on non-sectionalized land, the drilling unit must consist of at least 5 contiguous surface acres, and the distance between any two points farthest apart on the drilling unit must not exceed a distance of 750 feet, and

(ii) All separate property interests in the drilling unit upon which the well is located must first be consolidated, and

(iii). The well must be located at least 375 feet from every other drilling or producible oil well, and

(iv) The well must be located at least 150 feet from every lease line, property line, and subdivision line separating unconsolidated property interests.

(2) Where the oil well is drilled or deepened to and completed at a depth exceeding 1200 feet but not exceeding

1800 feet:

(i) The well must be located on a drilling unit upon which no other drilling or producible oil well is located, and no portion of which drilling unit is attributable to or falls within 200 feet of any other drilling of producible oil well located on the same lease or property. If the well is located on sectionalized land, the drilling unit must consist of a quarter of a quarter-quarter section. If the well is located on non-sectionalized land, the drilling unit must consist of at least 10 continguous surface acres, and the distance between any two points farthest apart on the drilling unit must not exceed a distance of 1100 feet, and

(ii) All separate property interests in the drilling unit upon which the well is located must first be consolidated, and

(iii) The well must be located at least 500 feet from every other drilling or producible oil well, and

(iv) The well must be located at least 300 feet from every lease line, property. line, and subdivision line separating unconsolidated property interests.

consolidated property interests.
(d). Computation of acreage attributable to oil wells in the designated area.
(1) The acreage attributable to any oil well in the designated area spudded on or before December 23, 1941, shall be

determined by assigning to the well an acreage equivalent to that of the existing well density contiguous to the well. If the well is completed at a depth not exceeding 1800 feet, the attributed acreage need not be greater than that required for a new well drilled to and completed at the same depth pursuant to this order. If the well is completed at a depth exceeding 1800 feet, the attributed acreage need not be greater than 40 acres.

(2) The acreage attributable to any oil well in the designated area spudded after December 23, 1941, which is completed at a depth exceeding 1800 feet shall be the same as the drilling unit assigned to the well pursuant to Conservation Order M-68, Petroleum Administrative Order No. 11, or any exception thereto, or any amendment thereof. The acreage attributable to any oil well in the designated area which is completed at a depth not exceeding 1800: feet, and which was spudded after December 23, 1941, but prior to the effective date of this order, need not be greater than that required for a new well drilled to and completed at the same depth pursuant to this order.

(e) Authorized uses of material for installation of pumping or other artificial lifting facilities. In addition to the uses of material for the installation or reinstallation of pumping or other artificial. lifting equipment which are authorized by Petroleum Administrative Order No. 11, as amended January 1, 1944, material may also be used to install or re-install pumping or other artificial lifting equipment on any oil well in the designated area which is completed at a depth not exceeding 1200 feet if the number of wells on the lease or tract to which pumping or other artificial lifting equipment is then attached does not exceed an average. of one well to every 5 productive acres.

(f) Violations. Any person who wilfully violates any provision of this Order, or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who wilfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or may be subject to other appropriate action.

(g) Effective date. This order shall take effect on the date of issuance.

HAND KNITTING WOOL YARN IN MAINE

Order No. G-33 under section 18 (c) of the General Maximum Price Regulation. Hand knitting wool yarn; State of Maine.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by section 18 (c) of the General Maximum Price Regulation, as amended by Amendment 33, It is hereby ordered:

(a) The maximum price for a sale by any retail store located in the State of Maine to an ultimate consumer of a four (4) ounce skein of all wool hand knitting yarn shall be the higher of the following:

(1) The retailer's maximum price established by the General Maximum Price Regulation, including any order issued under section 18 (a) thereof.

(2) Fifty-five cents (55¢) per skein.

(b) When used in this order, the term "all wool hand knitting yarn" shall mean an all-wool yarn dyed and converted for the hand knitting trade (including white), containing not less than sixty per cent (60%) of new wool.

(c) Lower prices than those established by this order may be charged.

(d) This order may be revoked, amended or corrected at any time.

This order shall become effective January 14, 1944.

[Region II Order G-1 Under SR 15]

FLUID MILK IN CERTAIN LOCALITIES IN NEW YORK

Order No. G-1 under § 1499.75 of Supplementary Regulation No. 15 to the, General Maximum Price Regulation.

For the reason set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1499.75 of Supplementary Regulation No. 15 to the General Maximum Price Regulation, and pursuant to a directive from the Director of the Office of Economic Stabilization, It.is hereby ordered. That:

(a) The maximum price for the sale and delivery in glass or paper containers of Grade A Pasteurized fluid milk at

wholesale into store, at retail out of store, and at retail to the home, in the cities of Cohoes, and Watervliet, and the village of Green Island, all in the County of Albany, and in the village of Waterford in the County of Saratoga, all in the State of New York, shall be the seller's maximum price as determined under § 1499.2, General Provisions of the General Maximum Price Regulation, or the applicable adjusted maximum price specified below, whichever is higher:

Type of delivery	Container size	Adjusted maximum price per container (in cents)
Into store Out of store and to-the-home.	Pint	13 7½ 4½ 15 8½
•	Half-pint	53/2

(b) For each type of fluid milk other than Grade A Pasteurized, the maximum price of any seller for the sale and delivery of such type of milk in any of the cities or villages above named shall be increased by an amount equal to the increase of maximum prices accruing to such seller from the adjusted maximum prices of Grade A Pasteurized milk prescribed herein, for the same type of sale and delivery to the same type and size of container. No person who has not received an adjusted maximum price for Grade A Pasteurized milk as a result of this order (either because he does not sell Grade A Pasteurized Milk, or because his maximum price therefor under the General Maximum Price Regulation is higher than the adjusted maximum price herein) may make an adjustment of his maximum prices for any other type of milk. (For example, if, as a result of this order, seller A's maximum prices for the sale and delivery in Cohoes of Grade A Pasteurized milk into store and to the home in quart glass containers, have been increased from 12¢ to 13¢ for delivery into store, and from 14¢ to 15¢ for delivery to the home, he may increase his maximum price for the sale of flavored milk in glass containers by an amount not in excess of 1¢ per quart for sales and deliveries into store and to the home. If seller B in Watervliet does not sell Grade A Pasteurized milk, he may not increase his maximum price for the sale of another type of milk, such as flavored milk.)

(c) Definitions. (1) "Fluid milk" means cow's milk produced, processed, distributed and sold for consumption in fluid form as whole milk and shall include flavored milk.

(2) "Grade A Pasteurized fluid milk" shall have the meaning prescribed by the appropriate statutes, orders or regulations of the State of New York, unless such definition is superseded by statutes, orders or regulations, of that political sub-division of the State of New York within which such milk is sold and delivered.

(3) "To the house" means a sale and delivery of fluid milk at retail from an

inventory stocked in trucks or other conveyances operated by driver-salesmen over regular routes, and shall not include a sale of fluid milk at retail by a grocery store, meat market, dairy store or other establishment which delivers fluid milk separately or together with other purchases.

(4) "Out of store" means a sale of fluid milk at retail by a grocery store, meat market, dairy store, or other establishment which delivers fluid milk separately or together with other purchases, and shall include a sale of fluid milk at retail by a milk distributor at his

plant or place of business.

(d) Where the adjusted maximum price is a unit figure containing a fraction of a cent, the seller must multiply such fractional unit figure by the total number of units in each sale or series of sales for which a single collection is made. Where the resulting amount contains a fraction of a cent, or where only one unit is sold, the seller shall adjust the maximum price to the nearest full cent, except that if the fraction should be a half-cent, the seller shall adjust the maximum price to the next higher full cent (for example, a maximum price of 8½ for one unit shall be adjusted to 9¢ for one unit, 17¢ for two units, and 26¢ for three units, etc.).

(e) This order is subject to revocation or amendment by the Regional Administrator or by the Price Administrator at any time hereafter, either by special order or by price regulation issued hereafter, or by supplementary order which

may be contrary hereto.

(f) Geographical applicability. This order applies to all sales of fluid milk within the geographical limits of the cities of Cohoes, and Watervliet, and the village of Green Island in Albany County, and the village of Waterford in Saratoga County.

(g) Unless the context manifestly otherwise requires, the definitions set forth in section 202 of the Emergency Prico Control Act of 1942, as amended, issued by the Office of Price Administration, shall apply to other terms herein.

This order shall become effective January 17, 1944.

[Region IV Order G-9 Under 18 (c), Amdt. 1] MILK IN FULTON AND DEKALB COUNTIES, GA.

Amendment No. 1 to Order No. G-9 under Section 18 (c) of the General Maximum Price Regulation (formerly designated "Atlanta Regional Price Order No. 18 (c)-10") Adjustment of fluid milk prices for Fulton and DeKalk Counties. Georgia.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Atlanta Regional Office of the Office of Price Administration by the provisions of Revised General Order No. 32, as amended, It is hereby ordered, That subparagraph II (3) and III (3) be amended as set forth below:

II. Definitions. * *

(3) "Premium milk" shall mean certified milk, homogenized milk whose Vitamin D content has been artificially increased, golden Guernsey milk and any other fluid milk for which the particular seller customarily charged a premium during March, 1942 over such seller's established maximum price for his standard approved fluid milk or any other such milk as may be classified as premium milk by any order issued by the Atlanta Regional Office of the Office of Price Administration.

III. Requirements of notification. * * (3) The written notifications required in subparagraphs (III) (1) and (2) shall

contain the following statement: "By Atlanta Regional Price Order No. 18 (c)-10, issued by the Atlanta Regional Office on December 31, 1942 and effective January 1, 1943, the Regional Administrator of the Office of Price Administration for Region IV established adjusted maximum prices for raw and pasteurized fluid milk within the boundaries of Fulton and DeKalb Counties, Georgia, as follows:

	Whole- cale	Out of retail - store	Retail home di- livered
GLASS QUARTS FIRES HOLF-pints PAPER	Cents	Cents	Cents
	15	17	17
	8	9	9
	4	5	5
Quarts	16	18	6
	9	10	13
	5	6	18

This order contains the following proviso-the maximum price of any seller for any specific kind, grade, quality or quantity of premium milk, chocolate milk or buttermilk shall be a price reflecting the same differential in terms of cents between such product and standard whole milk (raw or pasteurized) in containers of the same size and type, as existed under prices established by such seller under General Maximum Price Regulation.

Copy of said order and statement of reasons involved in the issuance thereof may be inspected at the place of business of the seller.

This amendment shall become effective December 31, 1943.

[Region IV Order G-17 Under RMPR 122] Solid Fuels in Designated Areas of ATLANTA REGION

Order No. G-17 under § 1340.260 of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Maximum prices for solid fuels within certain specified areas in Region IV.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) What this order does. (1) This order contains provisions of general applicability to area ceiling prices of solid fuels in all communities for which maximum prices will be hereafter issued as described in paragraph (a) (2) hereof. Heretofore, all of these general provisions had to be incorporated in the order issued for each community. The provisions of this order apply to all such community prices hereafter issued by amendment to paragraph (m) hereof.
This order applies only to those solid

fuels and those communities specified in paragraph (m) hereof, "Appendices". (2) This order establishes dollars and

cents maximum prices for certain solid fuels when sold in specified areas of Region IV. The solid fuels sold and the prices for such fuels will not necessarily be the same for all communities. Maximum prices and methods of computing special charges and discounts for each community will be contained in an appendix specifically covering that community. Each appendix will be issued as an amendment to paragraph (m), "Appendices", of this order. For example, the amendment covering the first community for which maximum prices are established under this order will be designated "Appendix'I".

(b) What this order prohibits. Regardless of any obligation, no person

shall:

- (1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by the applicable appendix set forth in paragraph (m) hereof, but less than maximum prices may at any time be charged, paid or offered:
- (2) Obtain a higher than maximum price by:
- (i) Charging for a service which is not expressly requested by the buyer and which is not specifically authorized by this Order.
- (ii) Using any tying agreement or making any requirement that anything other than the fuel requested by the buyer be purchased by him, or

(iii) Using any other device by which a higher than maximum price is ob-

tained, directly or indirectly.

(c) Ex Parte 148 freight rate increase; Transportation tax—(1) The freight rate increase. Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December, 1941. Therefore, no dealer may increase any schedule price on account of freight rates.

(2) The transportation tax. Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order provided the dealer states it separately from the price on the statement given to the buyer under paragraph (i) (2). (This tax need not be stated separately in sales to the United States or any agency thereofsee Amendment 12 to Revised Maximum Price Regulation 122.) No part of this tax may be collected in addition to the maximum prices on sales of quarter-ton or less quantities or on sales of any quantity of bagged.coal.

(d) Addition of increase in supplier's prices prohibited. The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occuring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are

within the discretion of the Administrator.

(e) Power to amend or revoke. The Price Administrator or Regional Administrator may amend, revoke, or rescind this order, or any provision thereof, at any time.

(f) Petitions for amendment. Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(g) Applicability of other regulations. Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is granted to all persons selling, at retail, commodities for which maximum prices are established. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(h) Records and reports. Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged. and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also separately state each service rendered and the charge made

It is not necessary that these maximum prices be filed with the War Price and Rationing Boards.

- (i) Posting of maximum prices; sales slips and receipts. (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.
- (2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, the price charged and separately stating, any item which is required to be separately stated by this order. This paragraph (i) (2) shall not apply to sales of quantities of less than quarter-ton or to sales of -bagged coal unless the dealer customarily gave such a statement on such sales.
- (3) In the case of all other sales, every dealer who during December 1941, customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind. size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(j) Enforcement. (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2). Persons who have any evidence of any violation of this order are urged to communicate with the District Office of the Office of Price Administration having jurisdiction over the district in which the violation occurred.

(k) Definitions, and explanations, When used in this order, except whereotherwise provided in an appendix hereto,

the term:

- (1) "Person" includes an individual. corporation, partnership, association, or any other organized group of persons, or legal successor representative of any of the foregoing, and includes the United States, any other government, or any agency or subdivision of any of the foregoing.
- (2) "Sell" includes sell, dispose, barter, exchange, supply, lease, transfer, and deliver, and contracts and offers to do any of the foregoing.' The terms "sale" "selling", "sold", "seller", "buy" "pur-chase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person sell-ing solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a

briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but, if this is physically impossible, the term means discharging the fuel directly from the seller's truck at a point where this can be done and at the point nearest and most accessible to the buyer's bin or storage space.

"Direct delivery" of bagged fuel or any fuel in quarter-ton or lesser lots always means delivery to the buyer's storage

space.

- (5) "Carry up or down stairs", "carry or wheel service", "carry from curb", or "carry from curb or up or down stairs" refer to the movement of fuel to the buyer's bin or storage space by wheelbarrow. barrel, sack or otherwise from the seller's truck or from the point of discharge therefrom when made in the course of "direct delivery".
- (6) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard or at any place other than his truck.
- (7) "District No." refers to the geographical bituminous coal-producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended, as they have been modified by the Bituminous Coal Division and as in effect at midnight August 23, 1943.

(8) "High volatile bituminous coal" and "low volatile bituminous coal" refer to coal produced in certain sections of the producing districts specified herein.

(9) "Egg, stove, stoker, etc." sizes of bituminous coal refer to the size of such coal as defined in the Bituminous Coal Act of 1937, as amended, and as prepared at the mine in accordance with the applicable minimum price schedule promulgated by the Bituminous Coal division of the United States Department of the Interior and in effect (or established) as of midnight August 23, 1943. Where the applicable minimum price schedule does not make specific mention of any size designated in this order, such size designation shall refer to the sizes of bituminous coal sold as such during December, 1941, in the area covered by this order.

(10) Except as otherwise provided in this Order No. G-17 or in any amendment hereto, or as the context may otherwise require, the definitions set forth in §§ 1340.355 and 1340.266 of Regulation No. 122 shall apply to terms used herein.

(1) Effect of order on Revised Maximum Price Regulation No. 122. To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

(m) Appendices. (Appendices will subsequently be issued by the Regional Office of the Office of Price Administration covering specified solid fuels when sold in specified areas. See paragraph (a) of this order.)

This Order No. G-17 shall become effective January 19, 1944.

Note: The record keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

FIREWOOD IN CERTAIN AREAS IN CALIFORNIA

Amendment No. 1 to Order No. G-79 under § 1499.18 (c), as amended, of the General Maximum Price Regulation. Adjusted maximum prices for firewood in certain areas in California.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1499.18 (c), as amended, of the General Maximum Price Regulation, Order No. G-79 is hereby amended as set forth below.

Paragraph (g) (1) (i), and (ii) are amended to read as follows:

(g) Applicability of the General Maximum Price Regulation and price orders—(1) Price orders. (i) Price Orders No. 1, 2, and 3 issued by the Northern California State Office pursuant to the provisions of Supplementary Regulation 15 to the General Maximum Price Regulation are hereby revoked.

(ii) Maximum prices in the territory within the jurisdiction of the San Francisco District Office established by Price Order No. 4 issued by the Northern California State Office are superseded by

Appendices to this order insolar as the territory within the jurisdiction of the San Francisco District Office is concerned. Insofar as said price order determined prices in areas beyond the present territory of the San Francisco District Office, this order shall have no force and effect on said prices in said areas. . .

Appendices E, F, and G, which are attached hereto and incorporated herein as though fully set out, cet maximum prices for firewood in the areas named in said appendices and are hereby added to and made a part of Order G-79.

This order shall become effective January 14, 1944.

Danforth's participation in the proceedings before the Commission; and

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held on said applications:

It is hereby ordered, That the record in the proceedings on the said plan be reopened and that hearings be reconvened on February 8, 1944, at 10 a.m., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in the room to be designated by the hearing room clerk in room 318, for the purpose of considering the aforesaid applications for approval of fees and expenses.

It is further ordered, That Robert P. Reeder, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing above ordered. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That all persons desiring to be heard, or otherwise wishing to participate in said proceeding, shall, on or before February 3, 1944, notify the Commission in the manner provided in Rule XVII of the Commission's Rules of Practice.

It is further ordered, That notice of the hearing be given to Hays, St. John, Abramson and Schulman; Paul E. Kern; Cravath, DeGersdorff, Swaine and Wood; Auchincloss, Alley and Duncan; William H. Button, Johnson and Shores; William H. Danforth; Abraham L. Pomerantz; Columbia Gas & Electric Corporation; and Columbia Oil & Gasoline Corporation by registered mail, and that notice to all other persons be given by publication of this notice in the Federal Register.

It is further ordered, That without limiting the scope of the issues presented

by applications to be considered in this proceeding, particular attention will be directed at such hearing to the following matters and questions:

(1) What is the maximum aggregate amount of fees which may appropriately be paid in connection with the above transactions and what is the appropriate allocation of said maximum aggregate amount among the various applicants therefor?

(2) Whether the services for which compensation is claimed are compensable, and the amount, if any, to which each of the applicants is entitled for his services.

(3) Whether the claimed expenses and disbursements of the various applicants were for necessary purposes in connection with these proceedings and are reasonable in amount.

By the Commission.

The Commission having previously entered an order dated May 20, 1943, (1) approving a plan filed under Section 11 (e) of the Public Utility Holding Company Act of 1935 by Ogden Corporation, a registered holding company, and certain of its subsidiary companies, designed to enable the Ozden system to comply with the provisions of section 11 (b) of the act, said plan providing, among other things, for the disposition by Ogden Corporation of its interests in Missouri Natural Gas Company, a wholly-owned public utility subsidiary of Ogden Corporation, and (2) directing, pursuant to section 11 (b) of the act, that action be taken by Ogden Corporation to divest itself of all of its interests in Missouri Natural Gas Company:

Ozden Corporation having filed a declaration, and an amendment thereto, as an amendment to its aforesaid plan, regarding the sale to a group of individuals of its security holdings in Missouri Natural Gas Company, such holdings consisting of \$305,500 principal amount of unsecured 6% demand notes, together with accrued and unpaid interest thereon amounting, as of September 30, 1943, to \$136,932, and 100 shares of no-par value capital stock, the consideration to be received therefor amounting to \$530,000 in cash, subject to adjustments for certain current items;

Ogden Corporation having requested that the order of the Commission entered in this proceeding contain certain recitals necessary to conform with section 1808 (f) of the Internal Revenue Code, as amended; and the said Missouri

Natural Gas Company securities being more completely specified and itemized in the agreement of sale, dated November 15, 1943, between Ogden Corporation and Edward W. Lake, nominee for the purchasers; the said agreement of sale, having been filed as part of the record in this proceeding, is hereby incorporated by reference in this order and made a part hereof with the same force and effect as if set forth at length herein;

. A public hearing having been held after appropriate notice, and the Commission having examined the record and filed its findings and opinion herein;

It is ordered, That, subject to the terms and conditions of Rule U-24, the application and declaration, as amended, relating to the said sale, be, and the same hereby are, approved and permitted to become effective, subject to the condition that Ogden Corporation shall cause Missouri Natural Gas Company prior to the said sale to establish a reserve of \$53,158.11 in respect of indicated intercompany profits by a charge to earned surplus.

It is further ordered, That the sale and transfer by Ogden Corporation of \$805,-000 principal amount of unsecured 6% demand notes, plus all accrued and un-paid interest thereon (amounting as of September 30, 1943 to \$136,932), and 100 shares of no-par capital stock of Missouri Natural Gas Company, are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, and are in conformity with the provisions of the order entered by this Commission on May 20, 1943 in Ogden Corporation and Subsidiary Companies (File Nos. 54–69 and 59-65) (Holding Company Act Release No. 4307)'.

By the Commission.
